

Vescom

2020

Vescom develops, produces and distributes high-quality interior products for the international contract market: wallcovering, upholstery and curtain fabrics.

Vescom represents quality. In technology, design and service. Eye-catching designs and sustainable materials form the basis of the collections. Vescom's products are used in the contract market especially in the hospitality, healthcare and office sectors.

There is a growing need for beautiful, rich and stylish interior products in these markets. The functionality of the products is, however, of crucial importance. Vescom's products fit in perfectly with these objectives. Technically, the wallcovering and interior fabric collections meet the high quality requirements that the contract market sets with regard to materials. Requirements related to issues such as fire resistance, eased application, fastness to light, durability and resistance to wear.

Vescom offers collections which allow sustainable choices to be made. However, Vescom takes its social responsibility further than simply supplying high-quality and sustainable products. Vescom produces whilst burdening the environment as little as possible and consciously chooses to separate out residual waste in a controlled manner. This guarantees a sustainable production process. Vescom uses exclusively green electricity and gas. The head office in Deurne, including the factory, works 100% CO-2 neutral. Vescom is ISO 14001 and ISO 9001 certified.

In addition to the headquarters in Deurne (the Netherlands), Vescom has an extensive network of dedicated sales offices. In Europe but also in the Middle-East, Asia, Latin America and the United States of America. Vescom works with distributors in other parts in the world. This ensures that it stays well-informed about international developments in the different markets and it can continuously improve its service and expertise.

Vescom (1971) is a part of the Vescom Group. This combination of worldwide operating companies specialises in the development, production and distribution of high-quality interior products: wallcovering and interior fabrics. The turnover is approximately € 100 million. Number of employees: 375. Vescom group companies are established in Europe and North America.
