The Green Touch

A Green vocation that goes through a continuous research of materials, which finds its maximum expression in this collection.

Una vocazione Green che passa attraverso una ricerca dei materiali continua, che trova in questa collezione la sua massima espressione.

Green is not a color. Green is an idea.

Thierry Lemaire, Hubert de Malherbe e Paolo Castelli present: the first eco-design collection 100% Made in Italy.

30 **eco-responsible** products which express not only the importance of the functional and aesthetic aspects of furnishings but also emphasise the value and charm of the way in which ethical design becomes the driving force behind a renewed sense of positivity and empathy towards the environment as a “resource”.

The collection comprises tables, armchairs, seats and light fittings, and reflects **the finest Italian and French design of the Fifties and Seventies**.

An ethical collection resulting from the creative talents of designers Hubert de Malherbe and Thierry Lemaire, combined with the savoir-faire of Paolo Castelli. The quality of the materials, which are all either regenerated, recouped or ethically produced under

strictly controlled conditions (fast-growing and second quality wood, recycled glass, stone, fabrics and concrete, natural fibres, sustainable ceramics), is enhanced by geometric styling, graphic details and asymmetrical proportions in an ironic and creative cut and thrust exchange between art and interior design.

Why GREEN?

Because the furniture sector, unlike others, is still rather backward from an environmental point of view.

Why KISS?

Many ecologists tend to be alarmists, this is why they have chosen a name that is positive and free of pointless complications, inviting all of us to take action.

What are the limits of elegance when using surprising new materials, moulded into the purest forms?

We leave it up to you to judge.

Greenkiss is

Collaboration

Three partners. A sincere exchange based on friendship and esteem. The will to take new paths to find innovative solutions for the new eco-sustainable luxury design.

Tre colleghi. Uno scambio sincero, basato sulla stima e l'amicizia. La volontà di percorrere nuove strade e trovare soluzioni innovative per il nuovo luxury design ecosostenibile.

Creativity

The desire to go further, to let yourself be led by the imagination and then direct everything onto something concrete and tangible. Keep playing growing up.

Il desiderio di spingersi oltre, di lasciarsi condurre dall'immaginazione e poi incanalare tutto su qualcosa di concreto e tangibile. Continuare a giocare diventando grandi.

Sustainable luxury

An exciting challenge: to continue creating objects of absolute value in a strongly green perspective. Research, regenerated materials and an ethical chain are our answer.

Una sfida stimolante: continuare a creare oggetti di valore assoluto in un'ottica fortemente green. Ricerca, materiali rigenerati ed una filiera etica sono la nostra risposta.
