Styl'editions designs and produces innovative wallpapers. Styl'editions is a new brand proposed by **Stylgraph**, a leading company in the surfaces design field with more than thirty-five years of experience as partner of the most important flooring and interior design companies in the world.

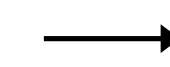

Our products are the result of a perfect mix between research, technology, craftsmanship and artistic sensitivity.

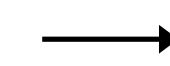

Vision

Starting a new path in the world of interior design thanks to a perfect mix of craftsmanship, technologies and great experience in the design field.

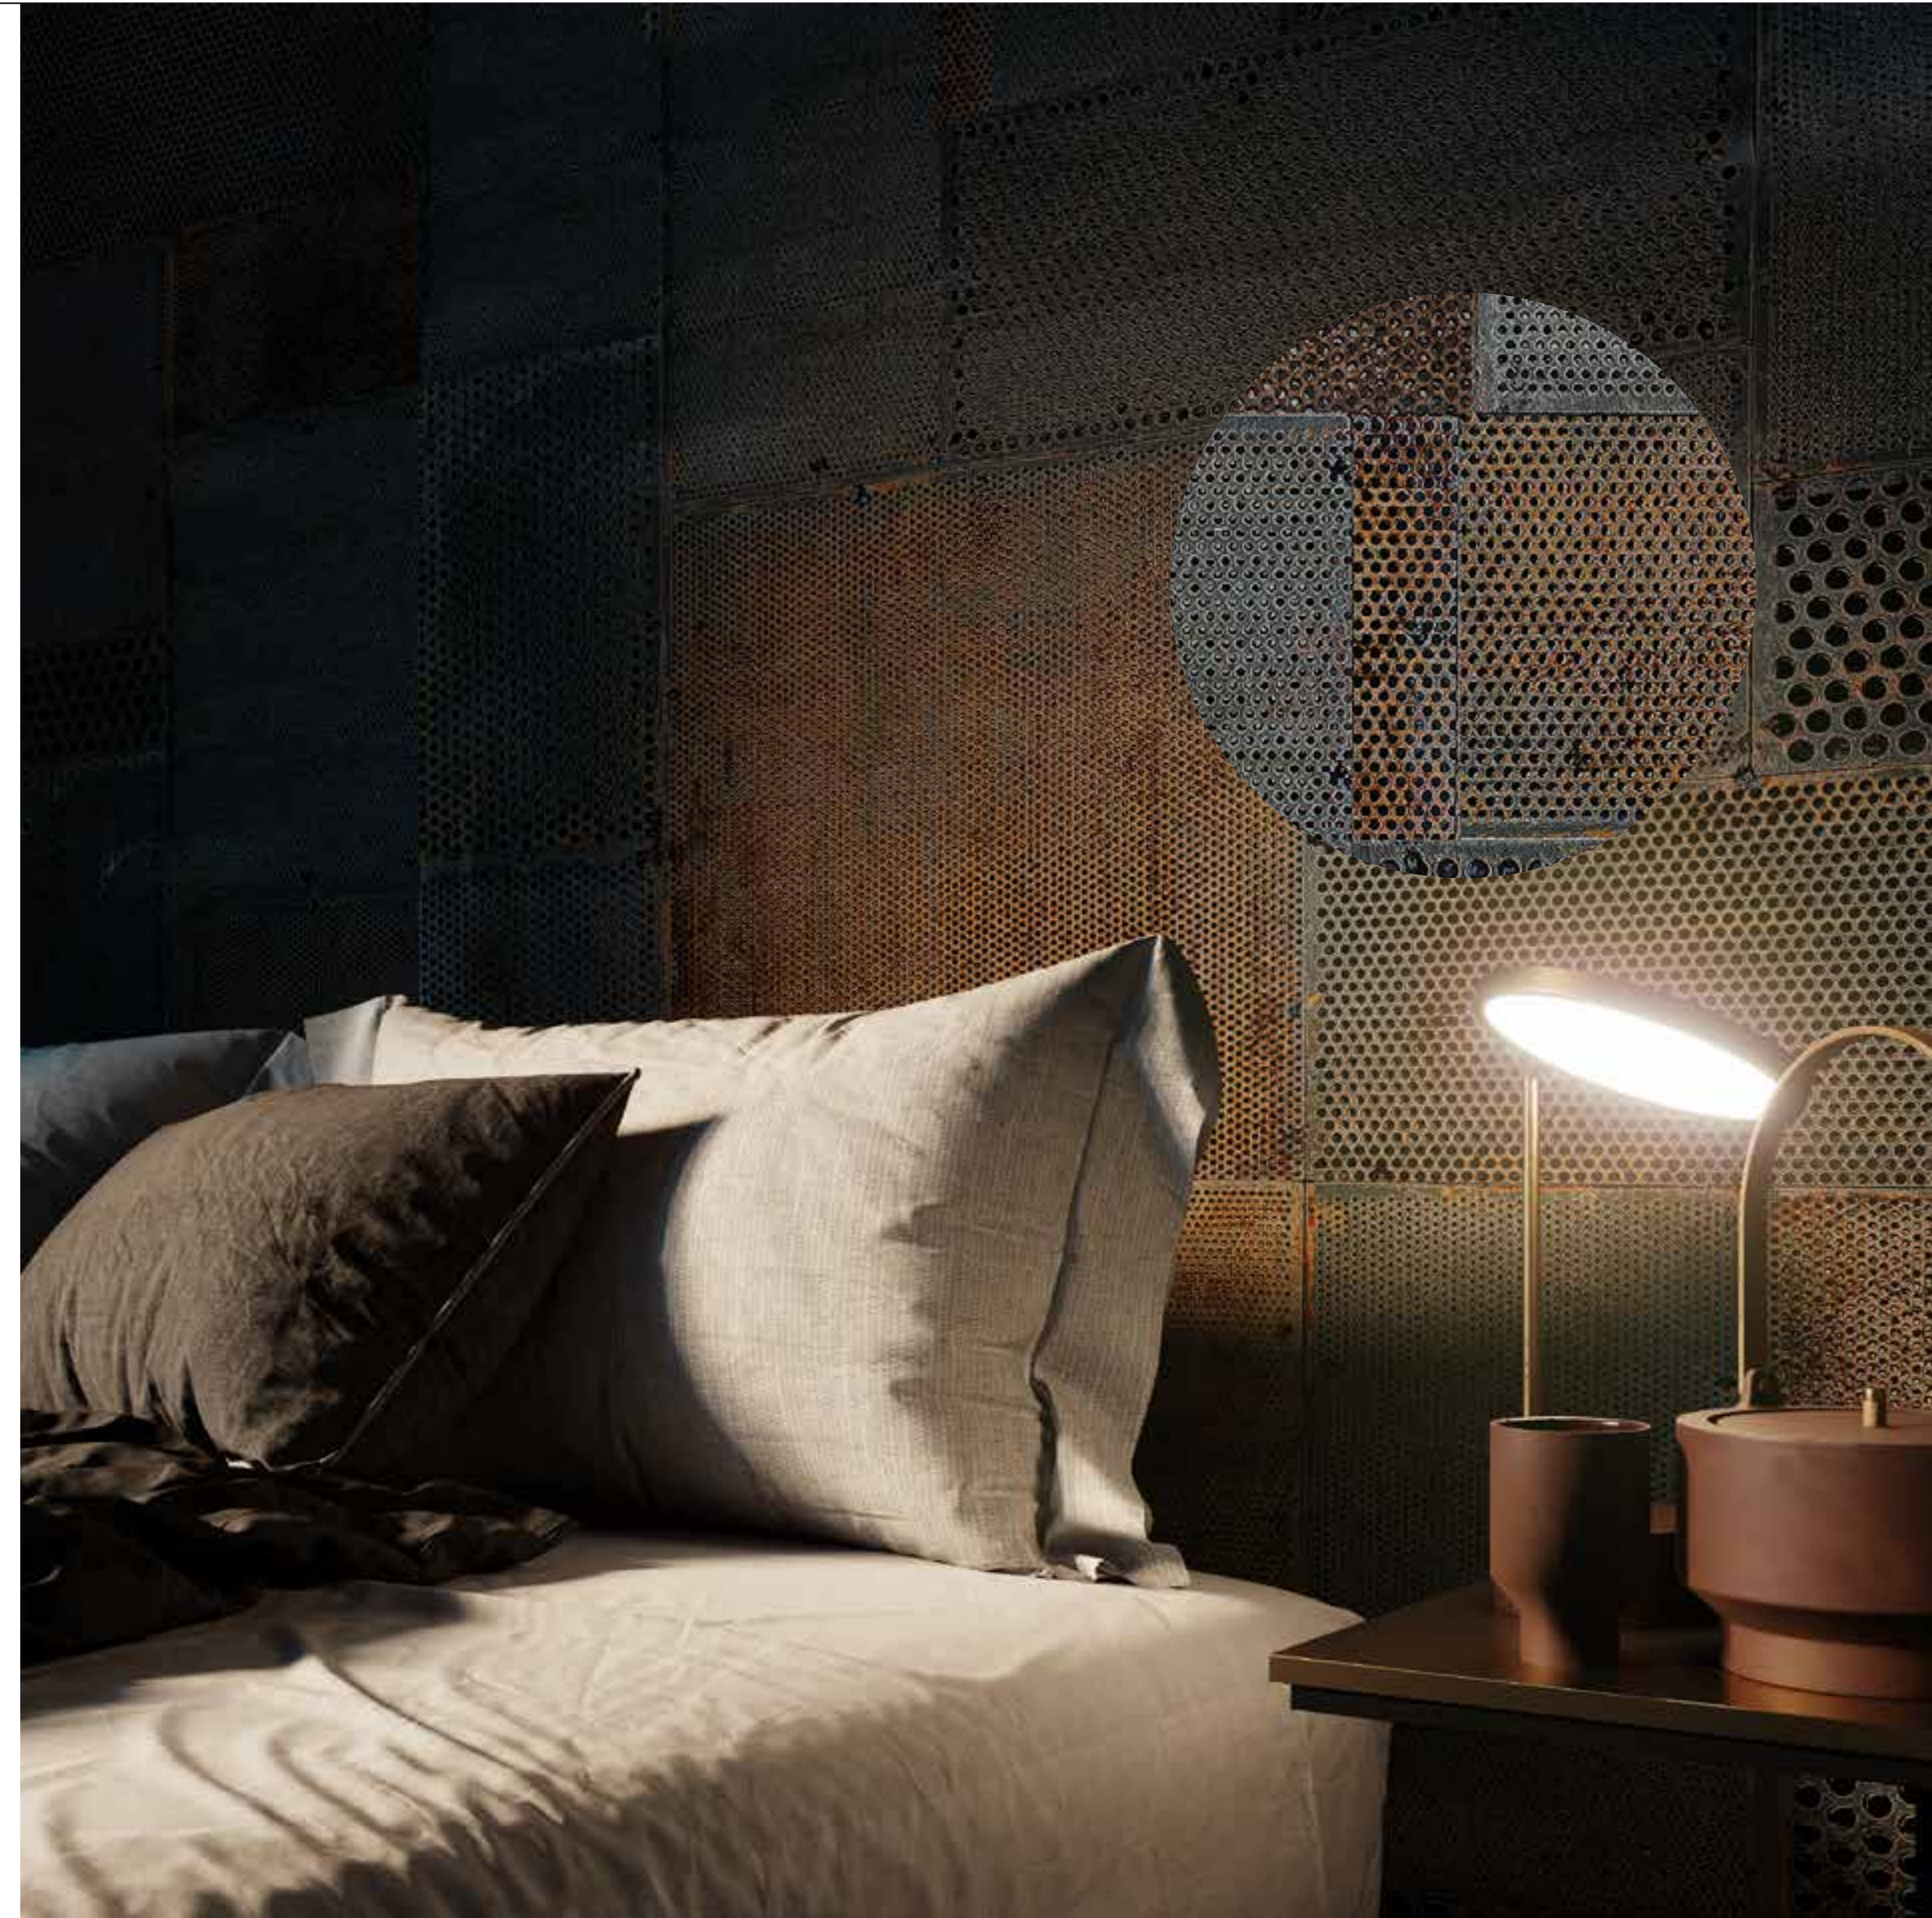

Mission

Designing and producing quality wallpapers, creating customer loyalty, thanks to a great attention to service, innovation and image.

Customization is our keyword: a full Graphic Department with great experience able to handle any design requirement.

HANDMADE WORKSHOP

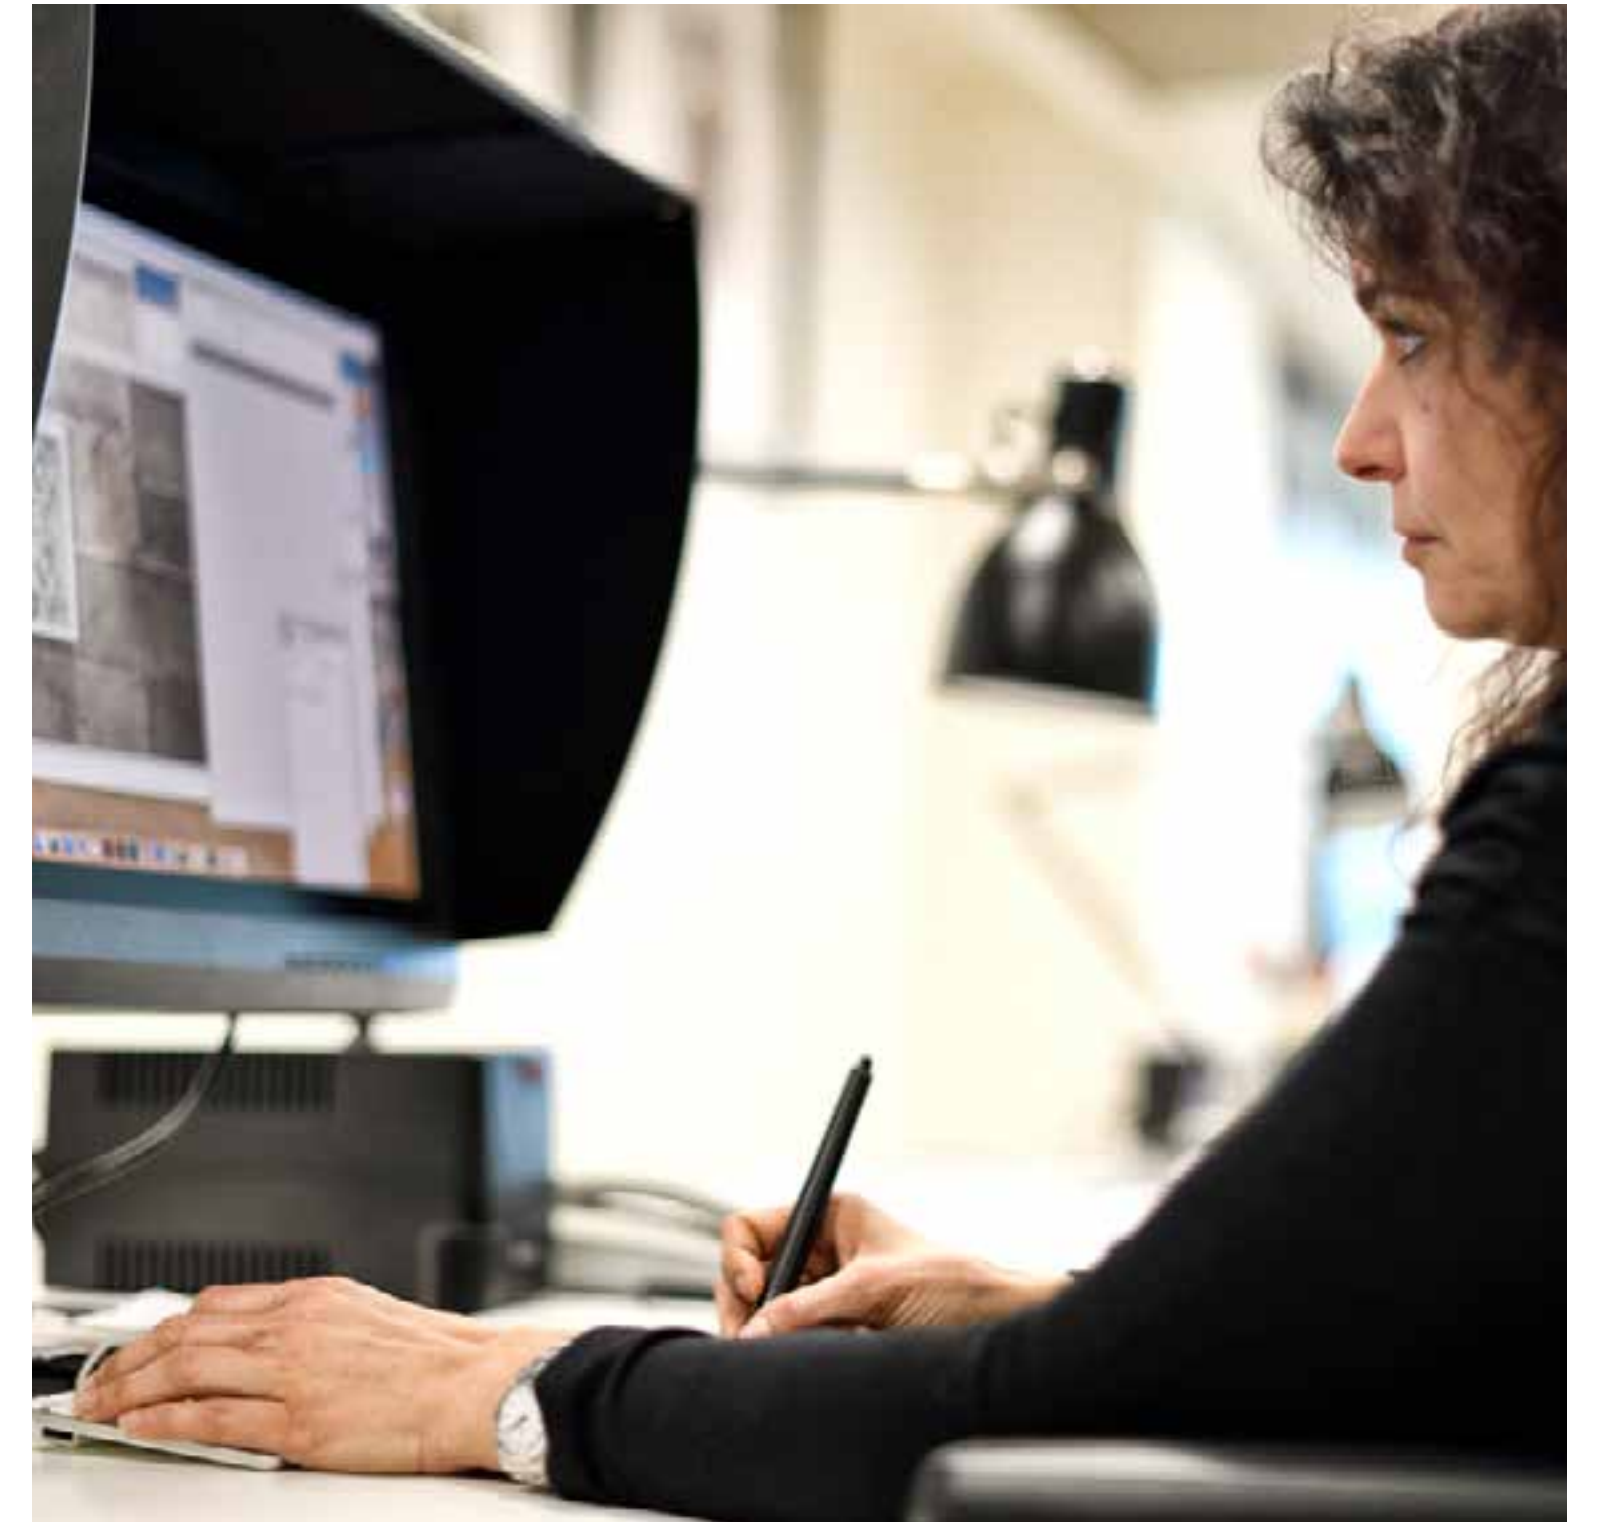

→
We create by hand the artistic decorations at the base of our collections.

SCANNING DEPARTMENT

We scan at very high resolution all the artistic prototypes made in our laboratory thanks to last-generation machineries.

GRAPHIC DEPARTMENT

Our Graphic Designers get inspired and interpret the high resolution files coming from the scanning department.

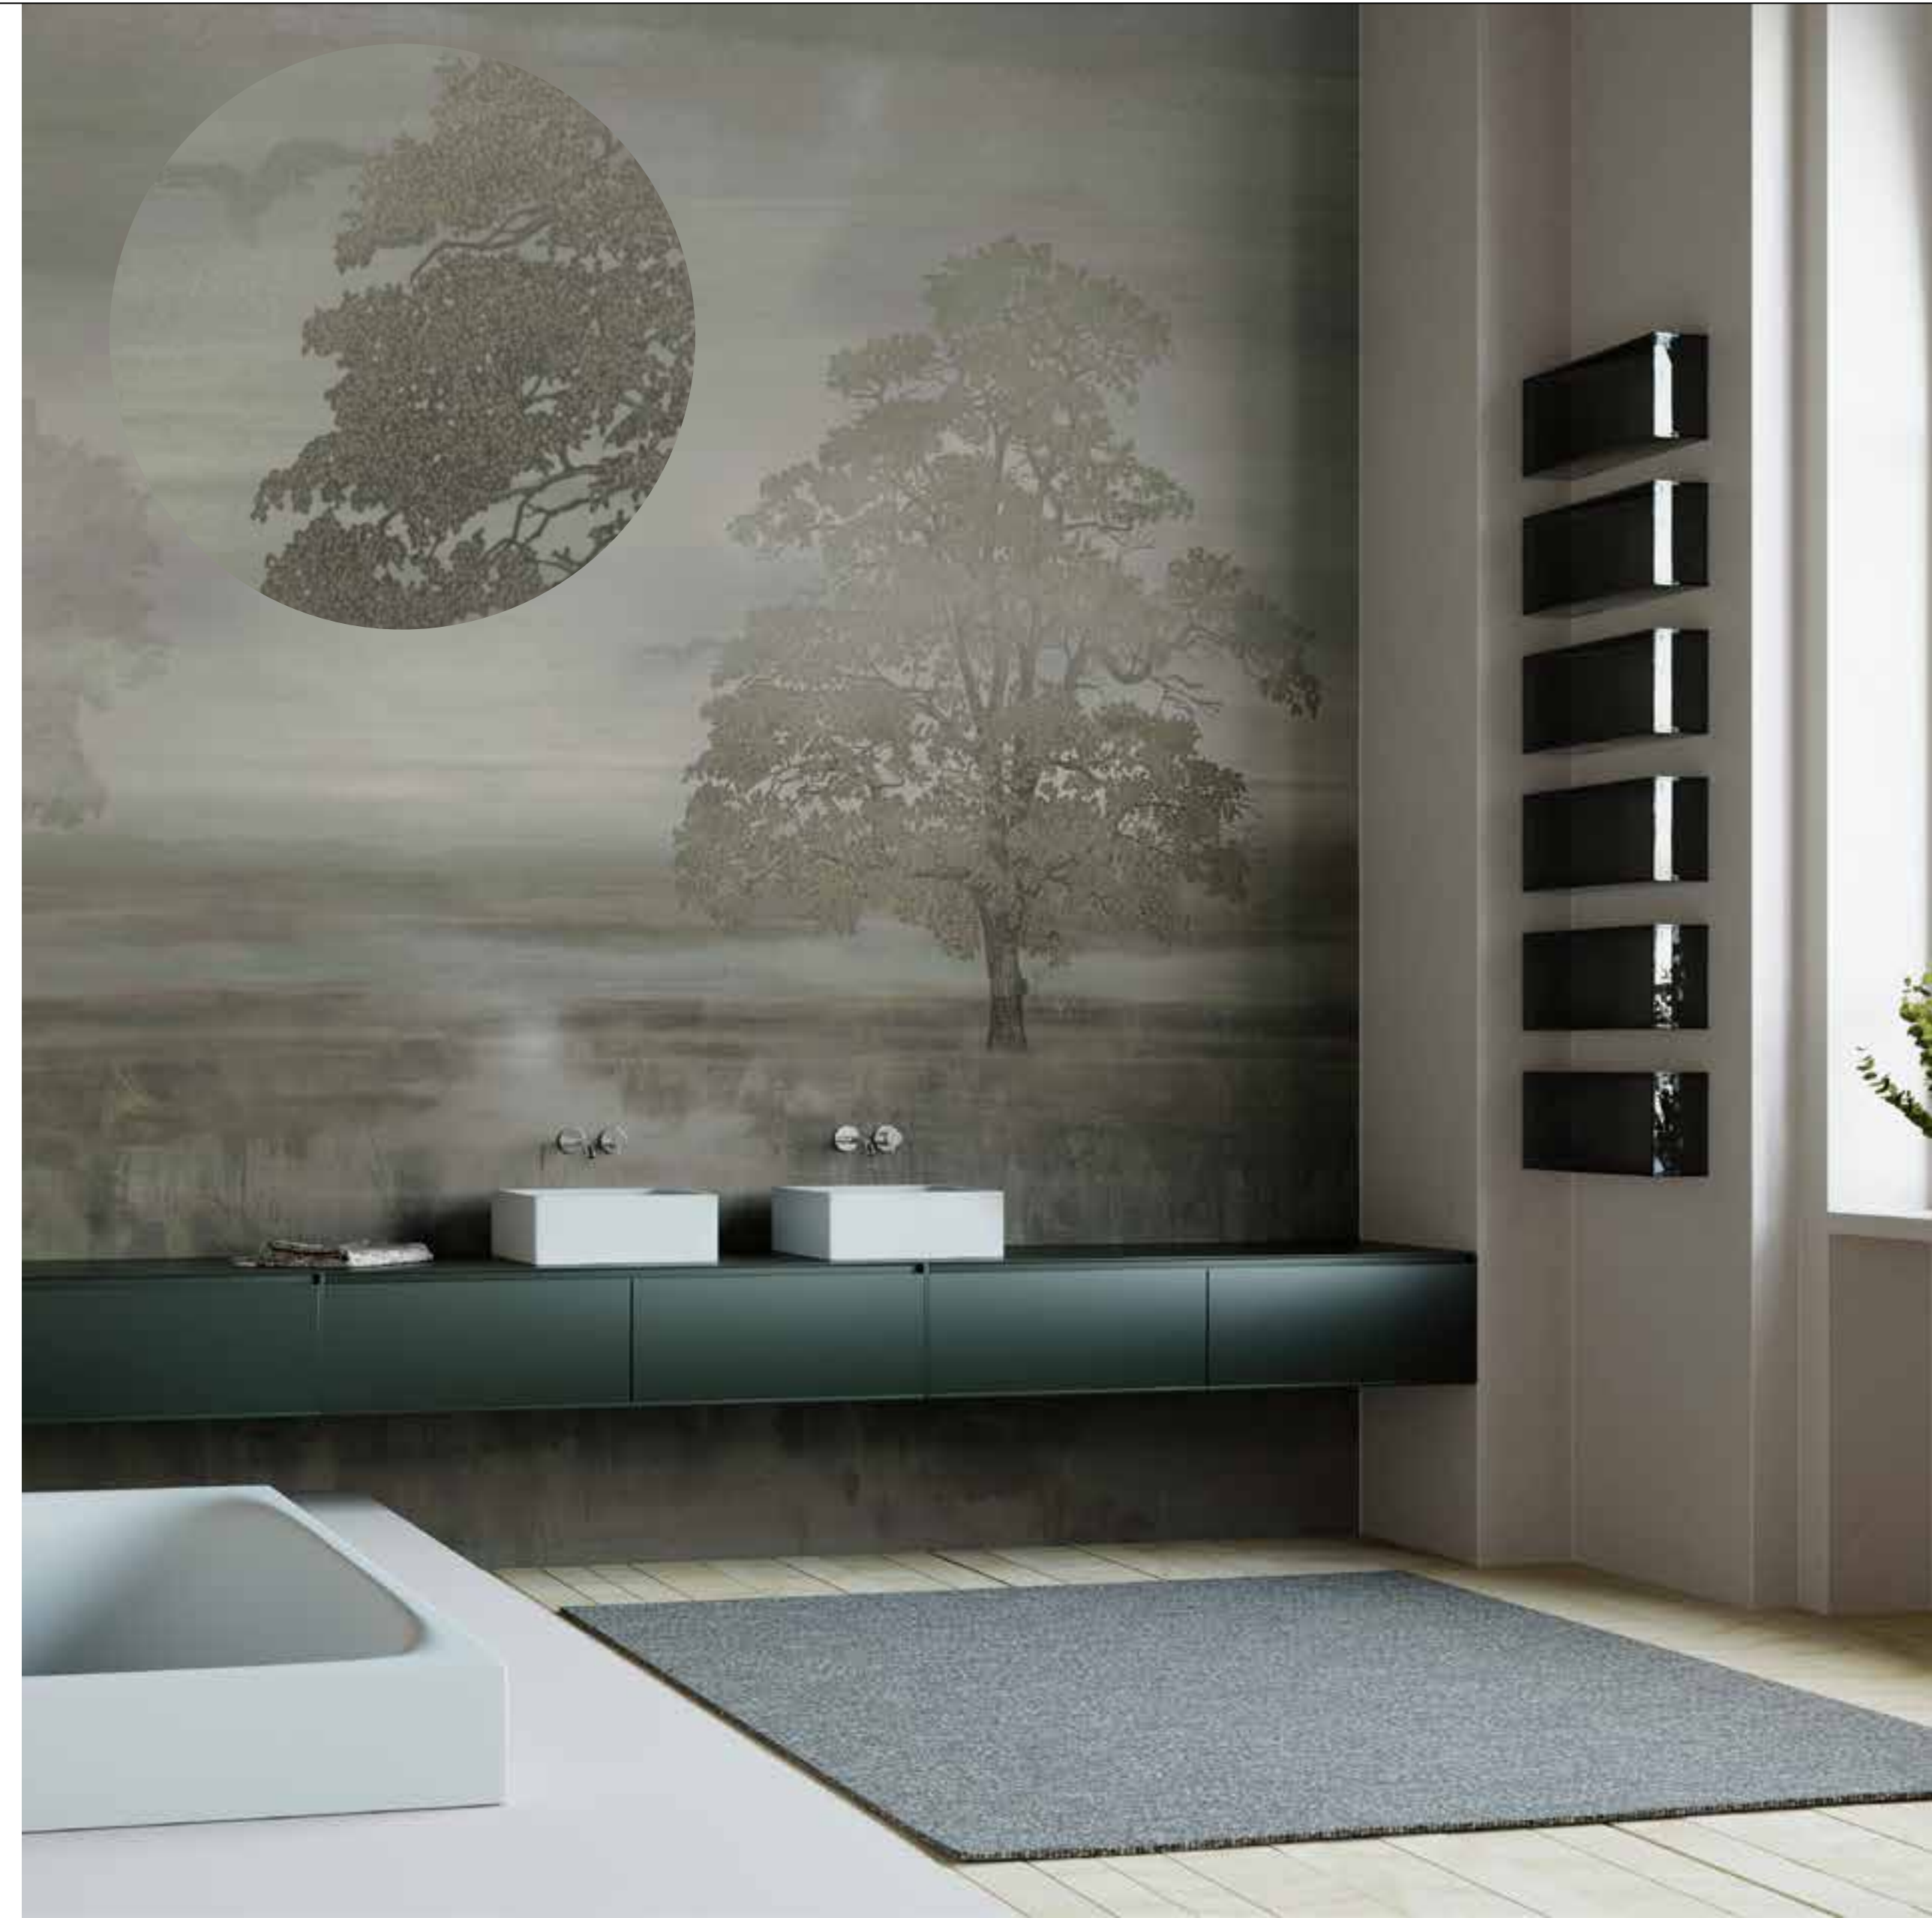

PRINTING DEPARTMENT

Where our wallpaper comes to life. A production made with green inks and special UV LED printing machineries that allow to reach unique products for quality and colors.

To suit any project need, we propose different supports including two non-woven vinyl coated wllpapers (S-VINYL RAW and S-VINYL SATIN), one ecological Non-woven wallpaper (S-PULP), and one fiberglass wallpaper for humid and receptive areas (S-FIBERGLASS).

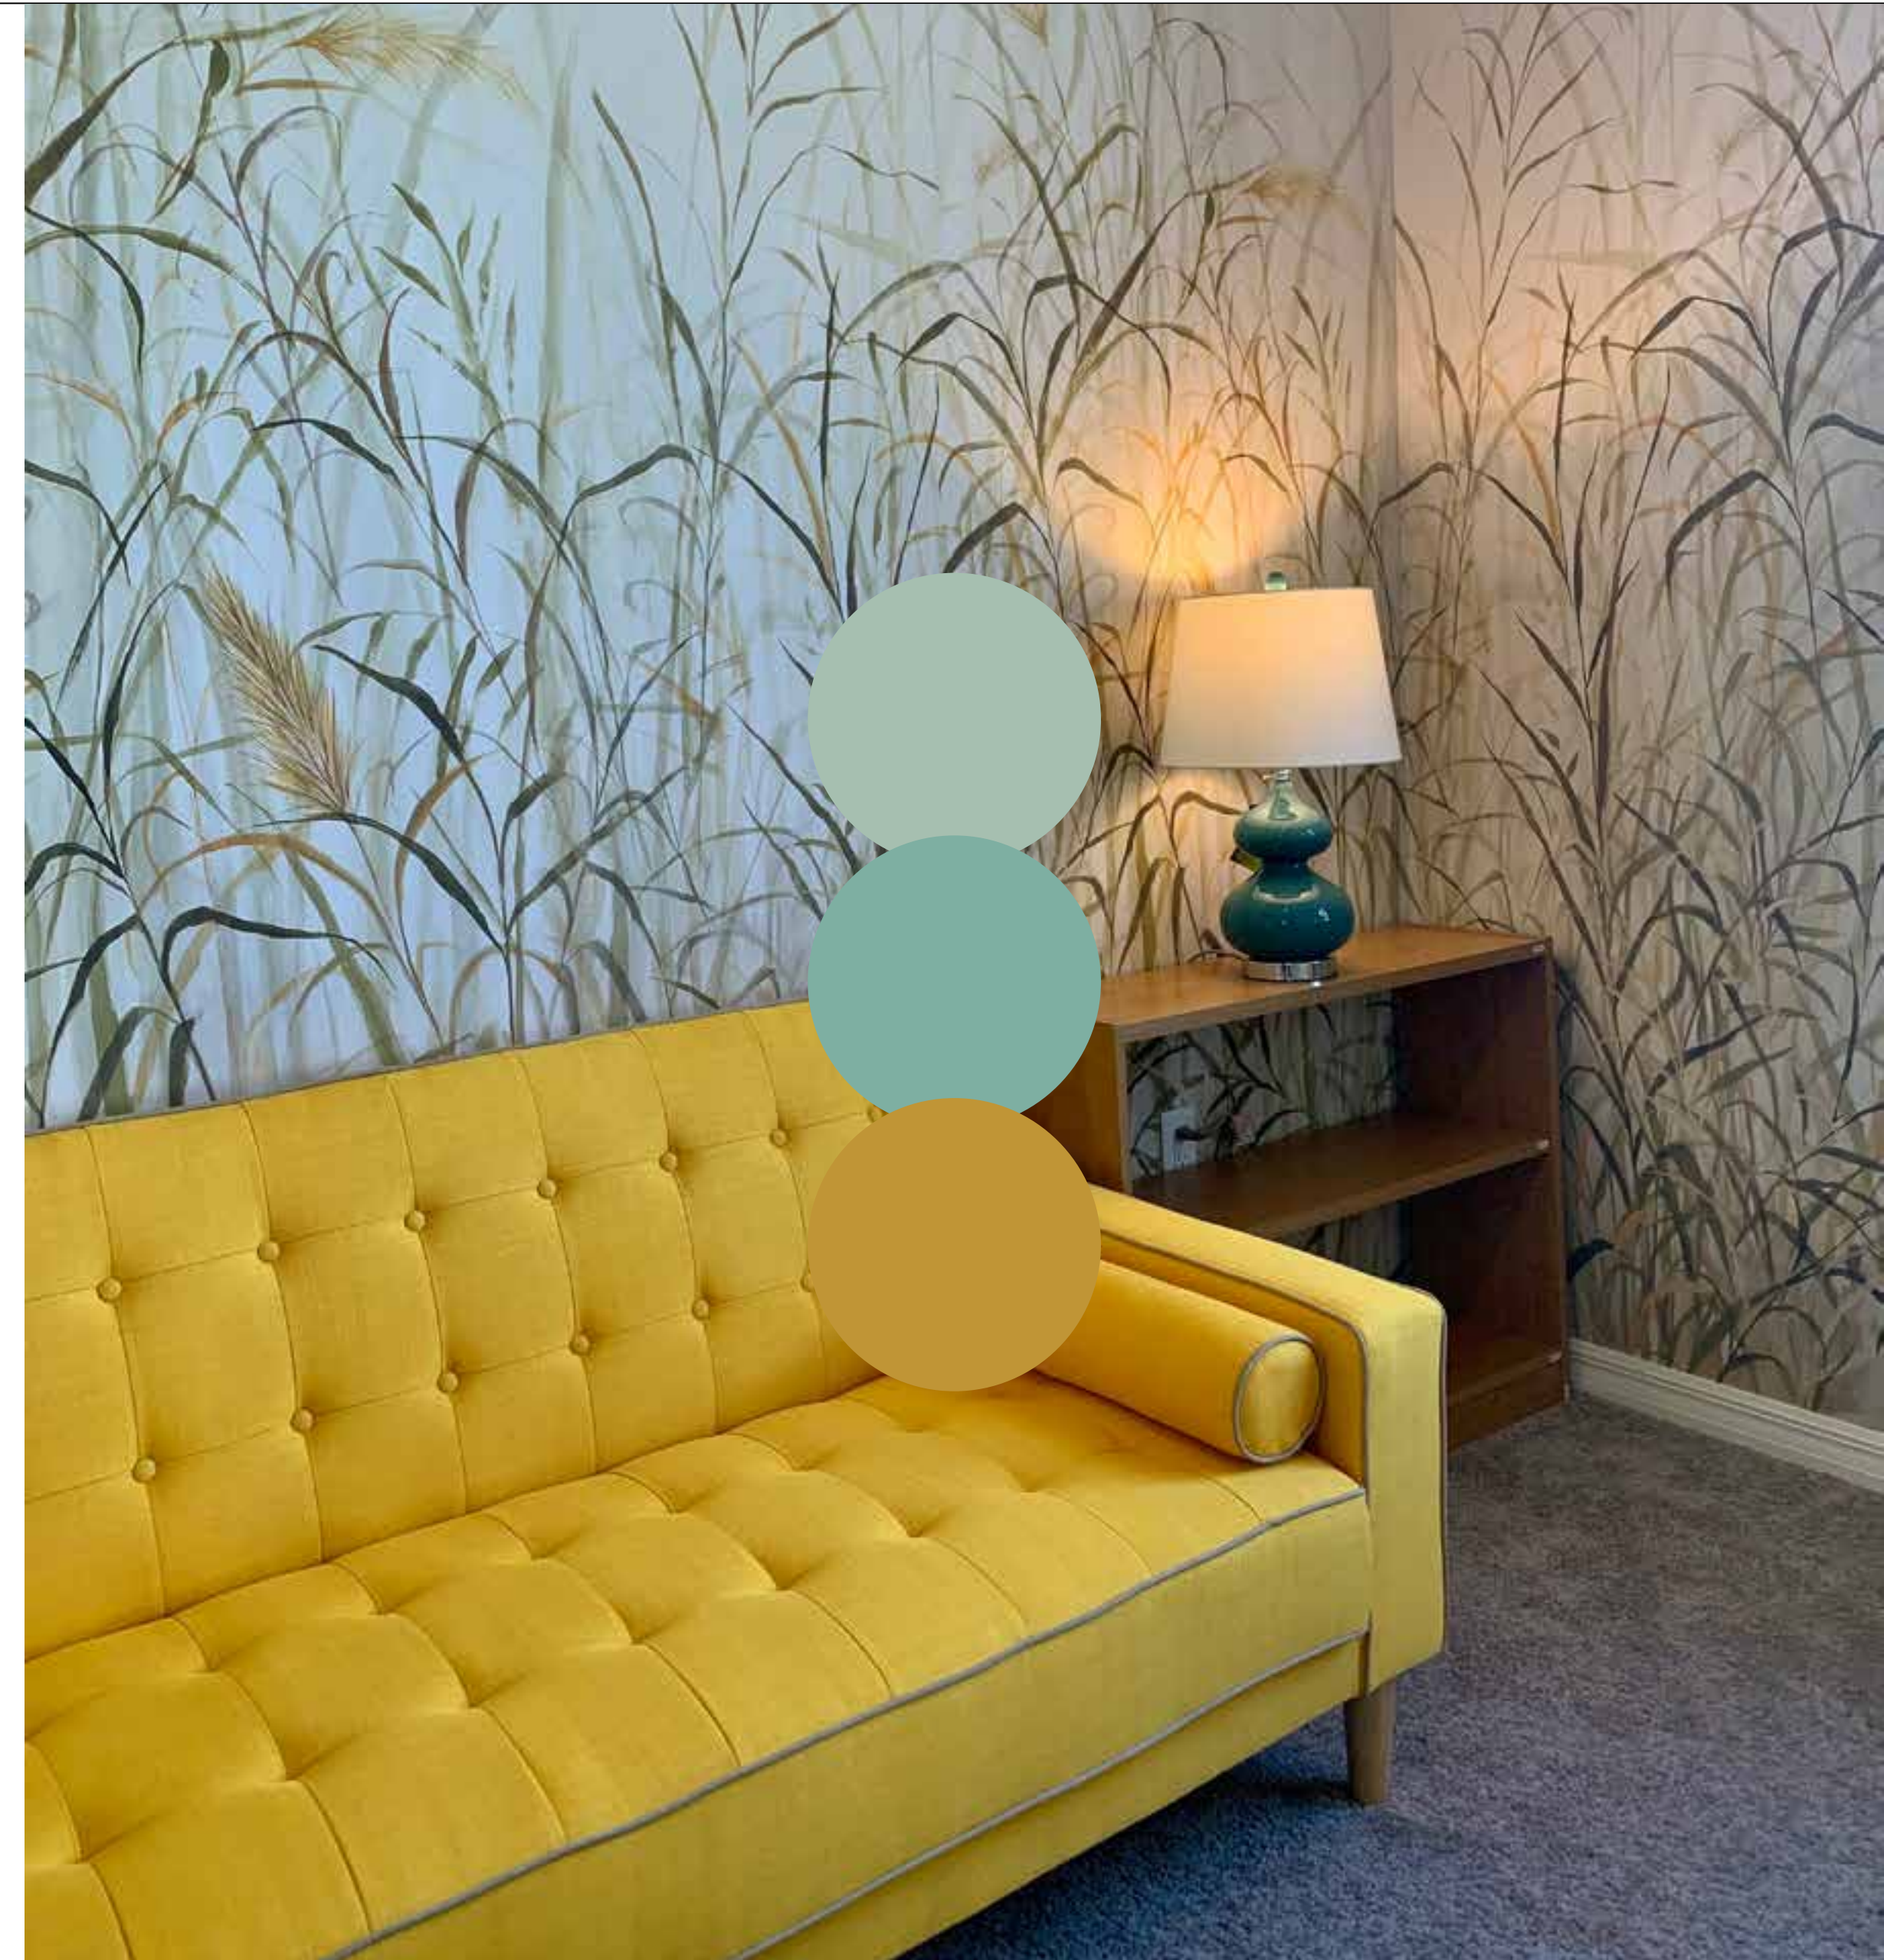

There are two ways to create a Bespoke Design on our wallpaper:

→

Providing us a high-resolution file

→

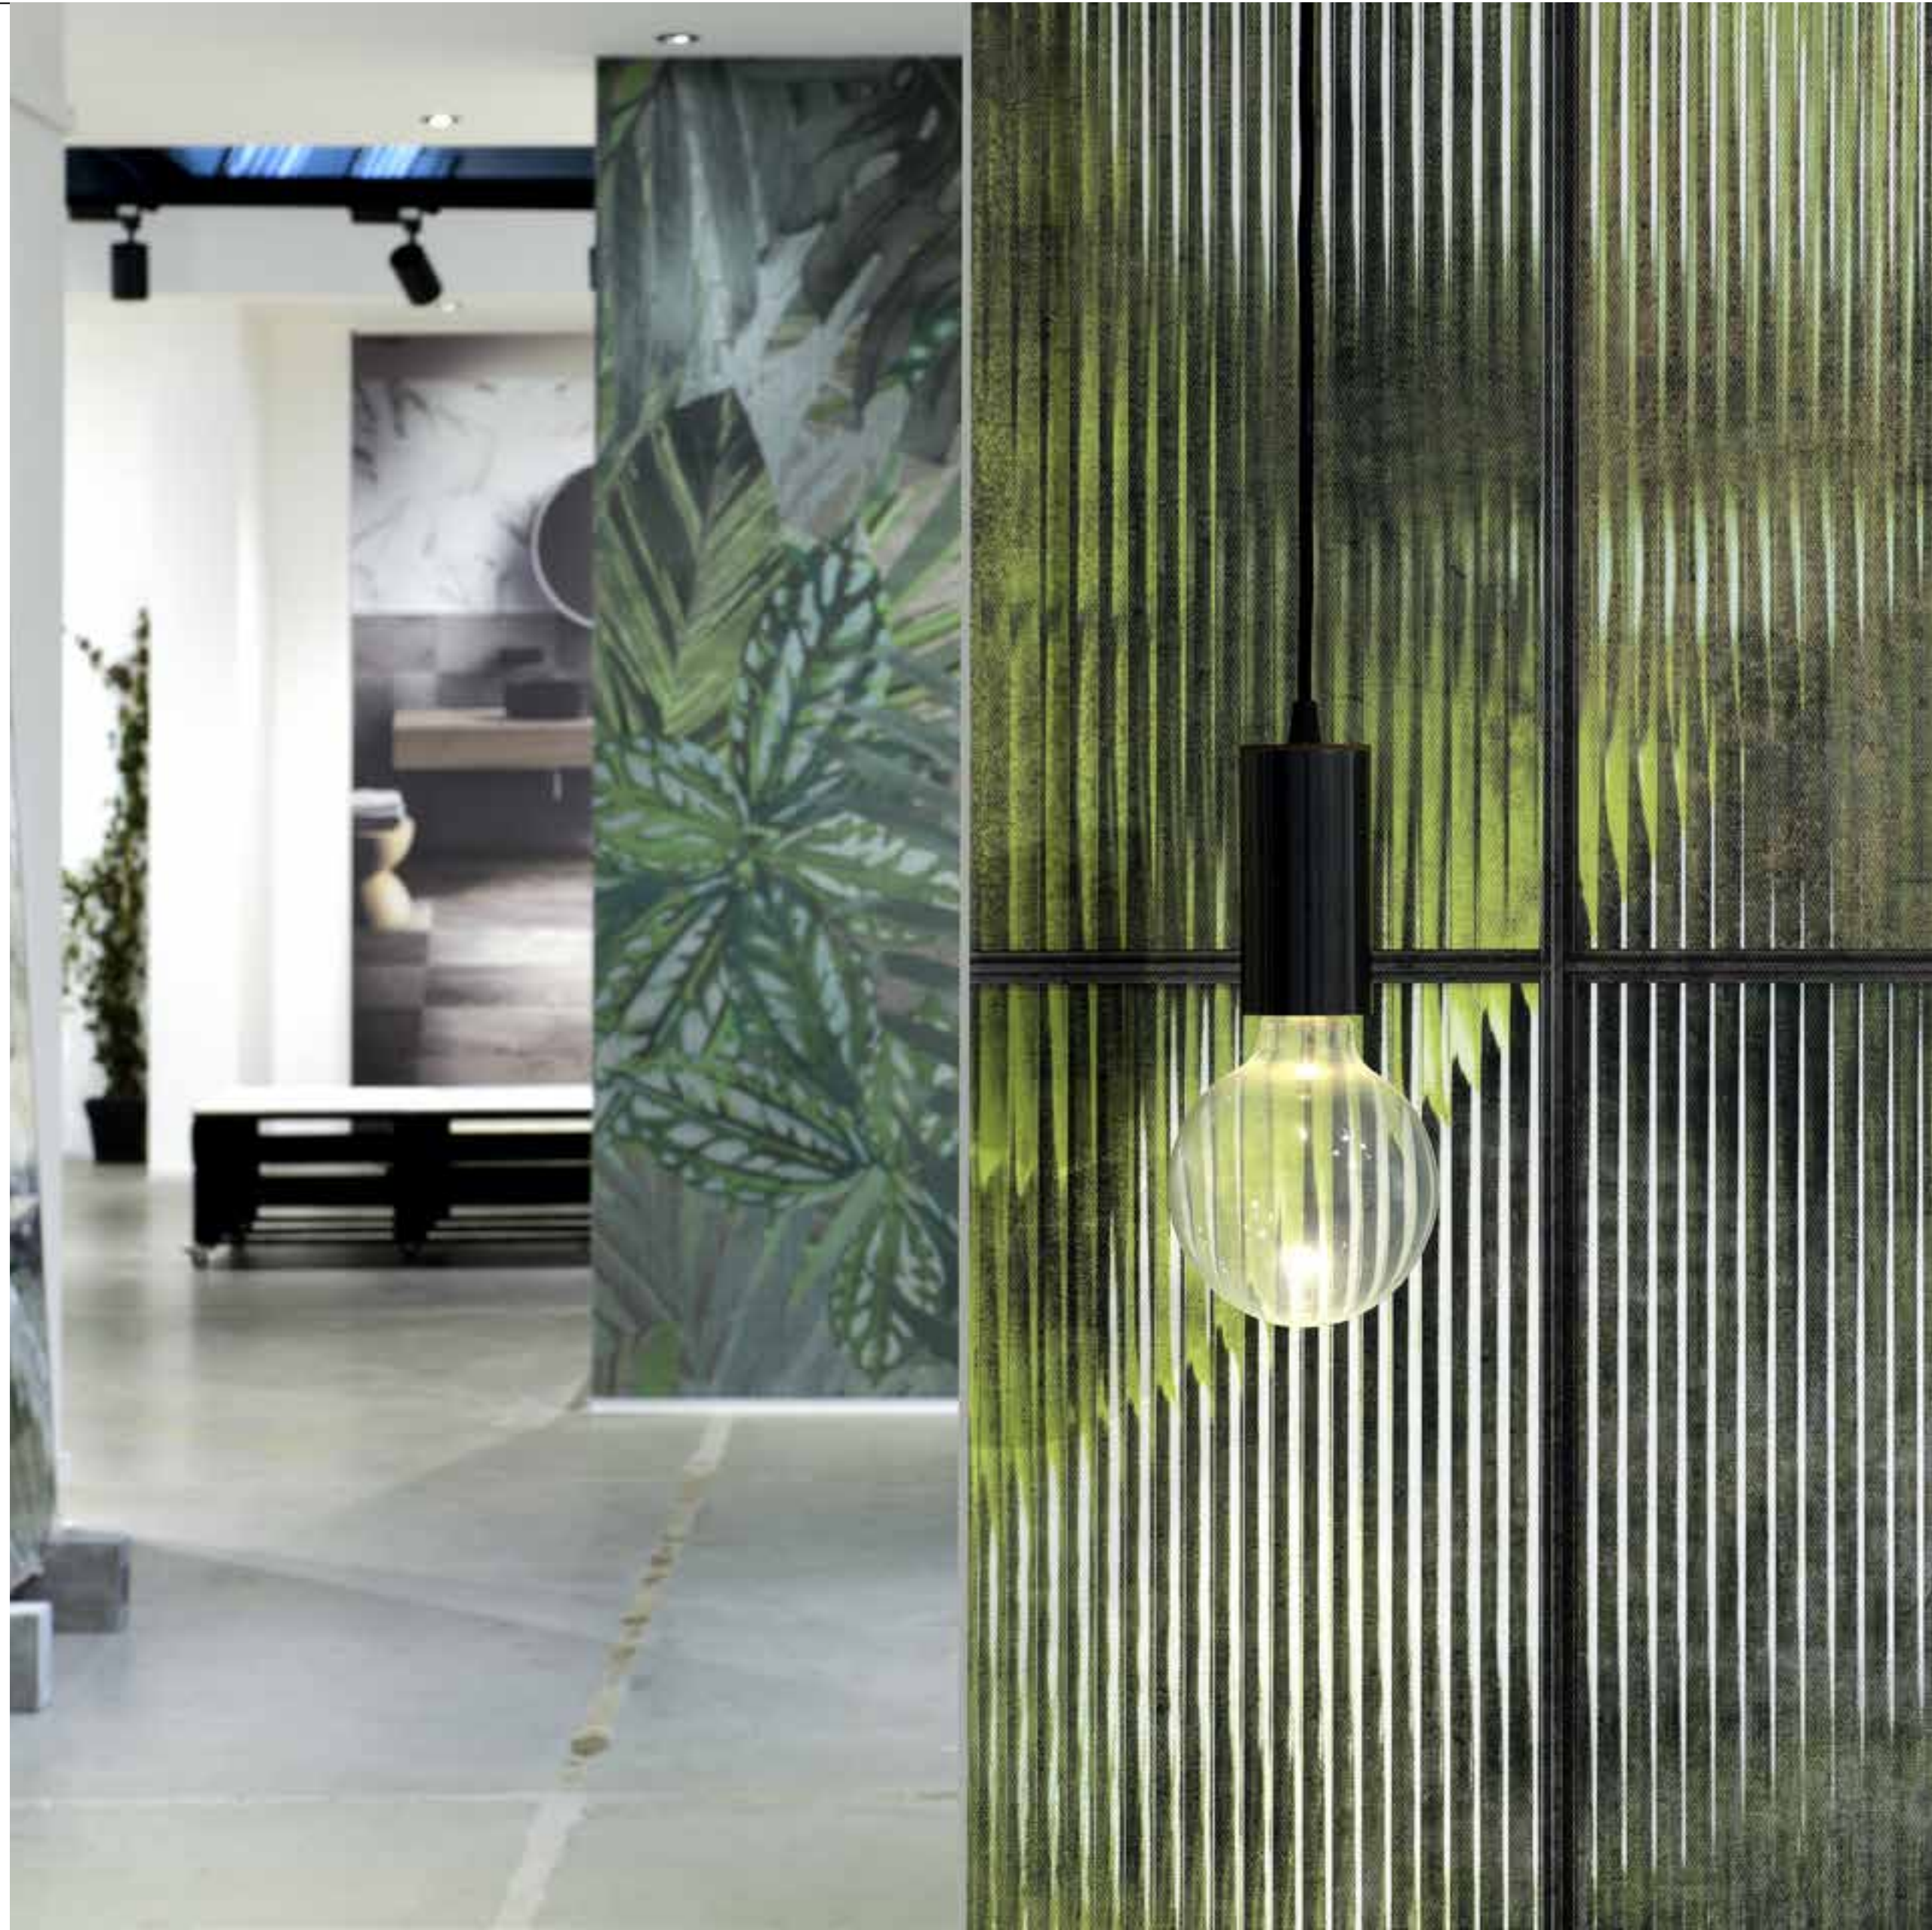

Giving us a graphic concept to be developed by our Graphic Department

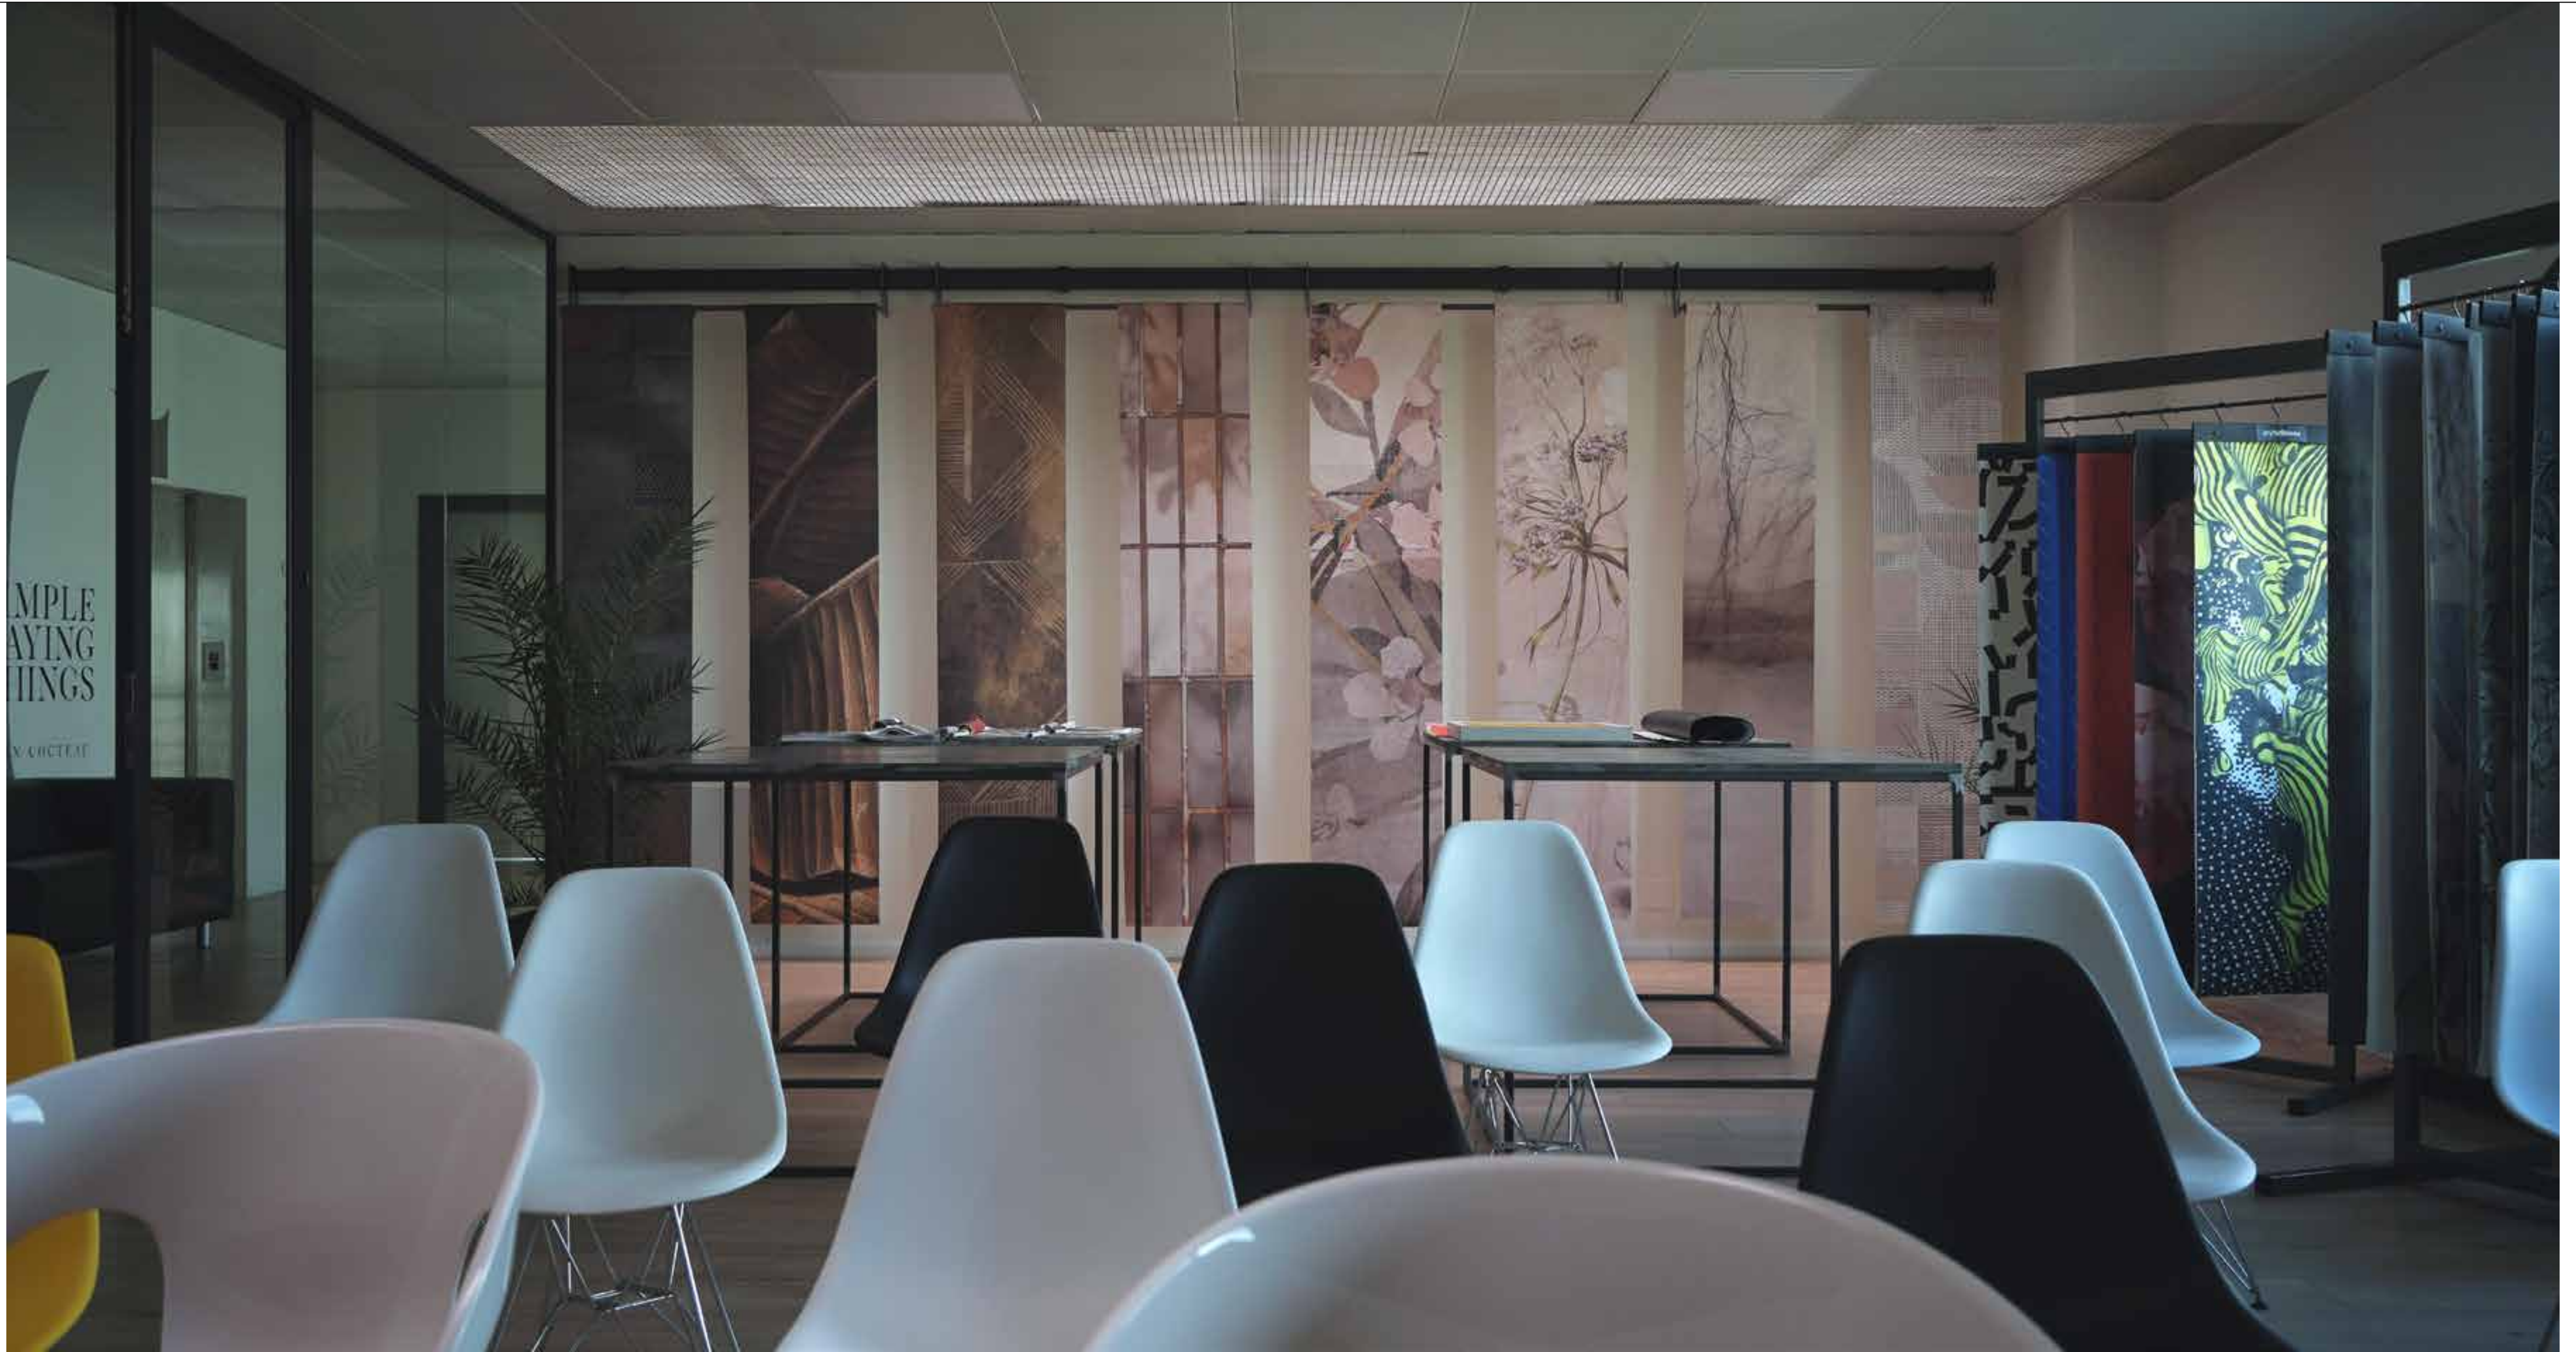

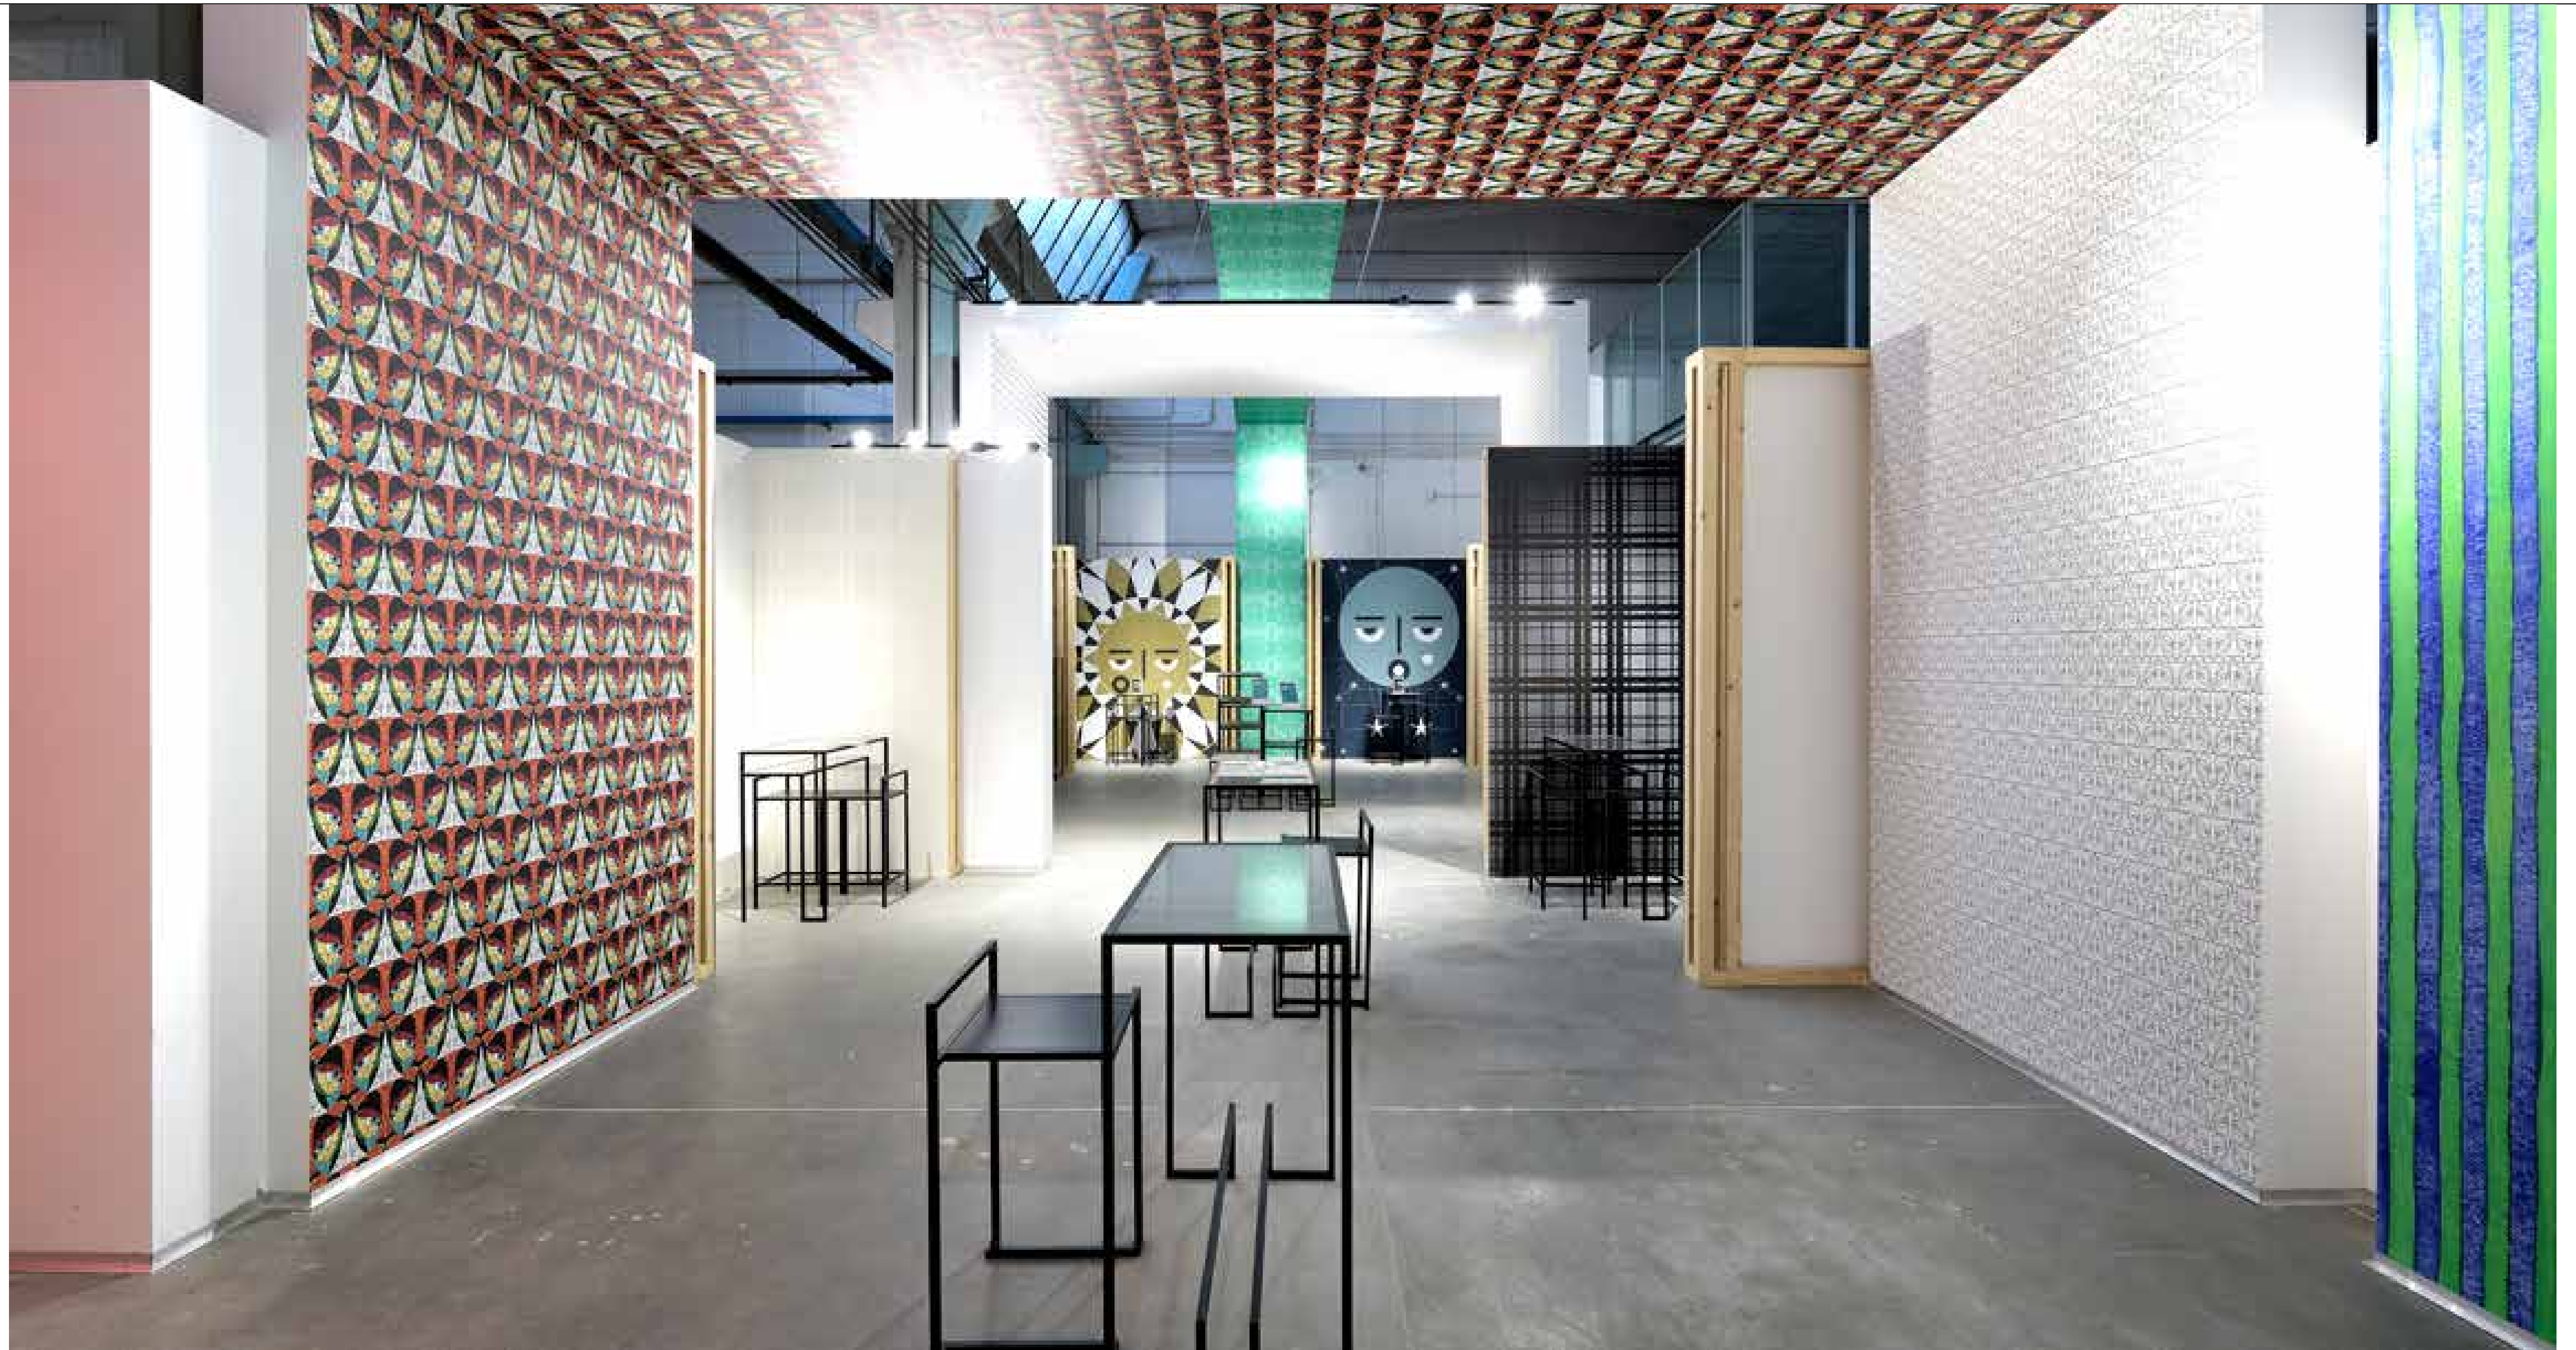

An additional service granted by Styl'editions is to realize on ceramic slabs our wallpaper collections or customized decorations.

Styl'Editions presents large exhibition spaces, perfect for hosting meetings, events and workshops.
