TRI LIGHT

The perfect triangular tiling honeycomb, the TRI Light. An enlightenment piece for the post-factual era. A paracompact flexible design system that can easily be perpetuated into infinity. For those of us humble enough to understand constraints of mortality it can be custom build to desired size and shape. Milled and anodized, each aluminum triangle shines on its own, creating widely dispersed, harmonious light evoking the importance of the elementary particles. Let the LED shine through.

DESIGNERS

Asobi is a design studio established by Gorazd Malačič in 1999. The studio made its international debut in 2005 at the London Design Festival with their prototype of the spellbinding Isle Lounge sofa. In 2006, Asobi received the Design Distinction (Silver) Award in I.D. Magazine's 52nd Annual Design Review for their fluid, futuristic Gwig LED luminaries. In 2014 Carbon Light, a high-performance modular LED suspension light, was selected as a finalist in lighting products at the Architizer Awards. TRI Light is one of the latest and newest in a series of extraordinary products designed by Asobi.
