

onde eu nasci existe uma floresta
where i was born there is a forest

Near the Amazon rain forest where I was born, there is a place where the roots of the trees intertwine with the memories of my childhood. Each memory that sprouts from this place becomes a whisper of the earth. They form an ancient song that echoes in the very heart of my creations. In the silent dance of the leaves and the gentle breath of the wind I find the essence of being, an invitation to coexist in harmony.

Designer Igor Lima, born in the Amazon, completed his graduation in 2018 at the European Institute of Design (IED) in São Paulo. To enrich his cultural understanding, he furthered his studies at Milan's IED. He also explored design in Helsinki. In parallel, Igor dedicated himself intensely to original projects. Alongside this, had the chance to collaborate with artisanal craftsmanship, especially connected to solid wood carpentry. Estúdio Igor Lima adopted a design that values simplicity and logic, while exploring the diversity and beauty of native woods, as well as the various ways to manipulate them

ESTUDIO

where i was born there is a forest

Estúdio Igor Lima stands out for blending forest elements into its designs, showcasing a passion for natural contours and distinct design. The studio's approach to design brings together ancestral influences with a minimalist and elegant touch, shaped by Igor's experiences around the globe. Only two years since its inception, Estúdio Igor Lima has garnered notable recognition in the design industry. Fueled by passion, talent, and unwavering dedication, Igor has featured his work at many fairs. His appearances include MADE in 2022 and 2023, DW São Paulo in 2023 and 2024, Berlin Design Week in 2023, and Expo Revestir in 2024. Achievements include being reward at the Museu da Casa Brasileira Contest in 2023 and being a finalist at the Salão Design in 2022.
