

Affreschi & Affreschi
ITALY

In 1997 Affreschi & Affreschi began the long journey
to become a unique reality in the world.

Born from the intuition of its founder Dario Roselli,
Affreschi & Affreschi has revolutionized the world of wall decorations,
becoming the first manufacturer in the world of frescoes with plaster-based
support to be applied on the wall; this was possible

thanks to modern decorative materials made through processes
that combine the value of design with the charm of craftsmanship.

The first objective was to brush up on the art of the annals of history
to bring it back to life in the modern era, an objective that has been
achieved and surpassed, as demonstrated by the prestigious creations
that play a first-class role in many projects carried out all over the world.

The second objective was, and still is, to see the fresco not as a mere
decorative object, but as a real means of communication, an expression
of trends, fashions and lifestyles.

*"Walls exist to protect our daily lives,
therefore they lend themselves to being transformed
into beauties that represent the language of our soul.
Frescoes are the best interpreters to reveal
our emotions and transform works of art
into unique spaces to live in."*

Dario Roselli

Marble quarry in Carrara, Italy

Carrara Marble is the leading component of the raw materials the frescoes mixture consists of.

David by Michelangelo Buonarroti. Carrara Marble statue

Between tradition and innovation, technical research becomes research for visual and tactile pleasure. All collections have been conceived to refine with elegance and enhance daily life spaces.

100% HANDMADE

Every day our skilled craftsmen make custom-made supports, elaborated according to the specific requests of each customer.

They are finished by hand with care and skill, so that the reproduced designs emerge in all their beauty.

This is how our wallpaper plaster is manufactured, the result of a mixture created ad hoc and shaped with precision that is consists of 27 high quality raw materials, including lime, grains of Carrara marble, Roman travertine and Lecce stone.

The final effect is that of a real wall, only 1 mm thick, which rolls up without breaking up. The manufacturing phases of our handmade wallpaper represent a unique experience, made up of continuous research and authenticity, which has been repeated daily for over twenty years

ECO-SUSTAINABLE

Wallpaper plaster helps you to live in a healthy environment, thanks to its composition based on natural raw materials at zero VOC (Volatile Organic Compounds) emissions.

For design with at least 40% white, the fresco exerts an action of purification of the air. This is made possible by the presence of a Class A+ certified product, free of formaldehyde, added during the processing phases of the material. It is a compound that contains terpolyacrylic resins and a new generation gel with ceramic microspheres, elements that allow you to purify the air.

Our handmade wallpaper interacts with the environment, eliminating and reducing formaldehyde and other pollutants, a further guarantee for your well-being and health.

CERTIFIED COLOURS

All the colours used to create our designs have the GREENGUARD certification, issued to products that improve air quality.

Wallpaper plaster is therefore suitable for application in sensitive environments, such as schools and health facilities.

Choosing Affreschi & Affreschi means relying on a quality product that respects the environment.

TECHNICAL SPECIFICATIONS

TYPE:

Handcrafted wallpaper

DESCRIPTION:

Digital reproduction on plaster spread on non-woven fabric

SINGLE ROLL DIMENSIONS:

Maximum width 160 cm

Maximum height 450 cm

THICKNESS:

1 mm

GRAMMAGE:

800 g/m²

COUNTRY OF ORIGIN:

Italy

CERTIFICATIONS

REACTION TO FIRE:

*Classification B - s1, d0
(EN 13501-1:2007+A1:2009)*

SOUND ABSORPTION:

*Reduction coefficient 5%
(UNI EN ISO 354 - EN ISO 11654:1997)*

THERMAL RESISTANCE:

*Transfer factor 0,128
(EN 12664:2001)*

FORMALDEHYDE EMISSION:

Certified to low formaldehyde emission standards (UNI EN 12149:1999)

PRINTING INKS:

*GREENGUARD GOLD
(UL 2818)*

*All our designs are reproduced on a 1mm flexible
plated handcrafted in our workshops.
