

PIANCA & PARTNERS

Pianca & Partners

Pianca & Partners is a project promoted by **Pianca** in collaboration with: **Agha, Alice Ceramica, Ardeco, Artesi, Barausse, Castaldi Lighting, Delta Dore, Diquigiovanni, Dnd, Dorelan, Falmec, Florim, Garbelotto, K-array, KE, Londonart, Mareno, Margraf, Milani, Nahoor Lighting, Nord Resine, Oikos, Palazzani, Santo Passaia, Talenti, Vitrik.**

All masters in their respective sectors, **Pianca & Partners** companies are consolidated realities in interior contract design.

Agha - www.agha.it/en

The name preserves the Italian origin of the brand: *aghe* in dialect means water. Agha, a company specialized in shower enclosures and shower trays, was founded in Sacile in 2010, to complete the proposals Artesi and Ardeco for the bathroom. In the 14 collections of the brand, the design and functionality take on countless configurations to offer the maximum possibility of tailored comfort. Total integration with Artesi and Ardeco products, constant research for the realization of new forms of water.

Alice Ceramica - www.aliceceramica.com

Alice Ceramica is based in Civita Castellana, 50 km northeast of Rome, Italy. Since 1998 it has been perfecting its production of Italian washbasins, WCs, bidets, bathtubs and shower trays, all rigorously made in-house in the factory located among the gorgeous Tuscia hills.

Alice Ceramica is a young company that pride itself for being creative and ambitious to challenge the traditional dogmas of the sanitary-ware industry. Captivating and never seen before lines, high attention to customer experience and a modern mindset have quickly earned Alice the reputation of a new key player of the leading brands of sanitary-ware.

It is no surprise that the heritage of the region and the long-standing traditions in ceramic-working heavily shaped Alice's ability to exceed any expectations in terms of design and reliability. Quality, innovation and a hint of pride makes our creations unique.

Ardeco - www.ardeco-it.com/en

Ardeco was founded in 1993 in Vigonovo di Fontanafredda (PN) with the aim, shared by Artesi, to pursue a *multi-brand commercial strategy*. Ardeco's production is immediately characterized by an experimental approach to bathroom furniture and by the attention for colors and materials, especially metals. The constant research for innovative solutions has motivated the rapid development of the company, specialized in products increasingly cared for the design and the manufacturing processes.

Artesi - www.artesi.it/en

Artesi is the first company of the homonymous group, founded in 1990 in Sacile (PN). It affirms itself in the bathroom furniture sector thanks to the quality of materials and production processes

PIANCA & PARTNERS

and the breadth of the product range. Artesi collections are born from a careful assessment of the needs of living and from a constant research for new forms that combine functionality, quality, competitiveness and durability, for the creation of the complete bathroom project. The style ranges from traditional to contemporary, with more minimal and design approaches.

Barausse - www.barausse.com/en

Since 1967 Barausse has specialised in the production of interior doors. The solutions for the separation of spaces, with high prestige and aesthetic value, aim to create environments where living is an exciting and comfortable experience. With many certifications and thirty years of experience in the contract sector, Barausse operates worldwide in the construction of luxury hotels, public facilities, residential buildings and private villas.

Castaldi Lighting - www.castaldilighting.me.uk

In 1938 Engineer Enrico Castaldi founds the company under his own name and over the 80 years he is able to express himself in the world of Italian design like no other. Since 1970s it launched its first architectural lighting products, becoming the pioneer of a new outdoor lighting concept. Castaldi has been one of the major players in the upper echelons of the international market, capable of offering the widest range of lighting products, characterised by high performance, refined design and technological innovation.

Delta Dore - www.deltadore.co.uk

Delta Dore, a French family-owned group with a strong international focus, is the pioneer in smart home and building solutions. Famed for its reliable product offering, the company develops open and secure technological solutions to support energy transition and greater personal comfort, both at home and in the workplace. Innovation has persistently been key to Delta Dore's growth since its creation in 1970.

Diquigiovanni - www.diquigiovanni.it/en

Diquigiovanni Srl, established in 1967, produces and installs PVC and PVC/aluminium windows and doors in Italy and abroad. It has always concentrated on residential, civil and industrial spaces, making them elegant, safe and comfortable. Its products, in addition to being long-lasting, are designed to offer living wellbeing while guaranteeing a high level of thermoacoustic insulation and optimal protection. The company is 100% Made in Italy: items are manufactured in the modern, completely new and automated plant of 10,000 m² – located in Gambellara in the province of Vicenza – that was inaugurated in August 2018. Industrial efficiency works alongside the constant attention to detail that is typical of artisanal production, which means we can create tailor-made solutions according to the specific requests of clients.

PIANCA & PARTNERS

Dnd – www.dndhandles.it/en

Since 1968, with a focus on craftsmanship and innovation. A company that is now an international reference point for the production of handles with a focus on high quality and good design; handles made to enter the most beautiful homes and appealing spaces, to enhance outstanding works of architecture, to offer an optimal response to needs of customization in the contract sector.

The history of Dnd comes from the industrial tradition of Val Sabbia (Brescia). A territory with an age-old material culture: here the company Fmn Martinelli was founded in 1968 and today, with the name of Dnd, is guided by Vilma Martinelli in a context of continuity by the same family. It is a solid corporation with an outstanding international reputation, able to combine its extensive with the best contemporary creativity. In fact, Dnd puts its production know-how at the service of designers and architects to formulate the range of products and to adapt to the evolution of the world of interiors. The company, with confidence and curiosity, strives to be a forge of ideas for contemporary product design: among the designers of Dnd, Jaime Hayon, Odo Fioravanti, Giulio Iacchetti, Luca Nichetto.

Dorelan – www.dorelan.com

Sleep well and feel at home even when ... you are away from home! This is possible thanks to the collection of Dorelan bed systems, designed and created for over 8,000 hotels, in Italy and abroad, who have chosen Dorelan for the rest of their guests. The Dorelan collection is dedicated to all the people who consider the sleep quality in their hotels the most important element of the guest experience and thus make their guests' stays unforgettable. The excellence of Dorelan bed systems has been chosen by the best Italian and international hotel chains, to guarantee a rest in the name of well-being and maximum comfort.

Falmec - https://en.falmec.com/en_ww/

Founded in 1981 in Vittorio Veneto (Treviso), Falmec is today a leading manufacturer of extractor hoods and air treatment solutions, characterized by technological innovation, design and quality, an expression of 100% Italian genius.

Through a multi-stage process that takes place in the Vittorio Veneto factory, near Venice, every single product is treated in detail.

The brand's great strength lies in the ability to combine sophisticated design and new technologies aimed at perfecting product performance, from the silent aspiration to air purification, thus improving our way of living comfort and the quality of time spent at home.

Florim - www.florim.com/en/

Inspired by an innate passion for beauty and design, Florim has been producing surfaces to meet all the needs of the constructions, architecture and interior design sectors for almost 60 years. Headed by Claudio Lucchese, son of its founder Giovanni Lucchese, the company has a past firmly rooted in the ceramics district at Sassuolo (Modena) and a present as an international industry trendsetter. Today, the Group employs 1,400 people worldwide and generates turnover of more

PIANCA & PARTNERS

than 400 million Euro in 2019. Famed for its quality, expertise and cutting-edge technology and design, it is known on the market through its high-end Italian brand dedicated to the North American market. With state-of-the-art production plants, distribution companies and partnership in Europe, America and Asia and a number of flagship store and single-brand showrooms, the company is well positioned in the world's top design districts. Its strategy focused on quality, innovation and sustainability combines with the creative drive and passion of its human resources to transform the value known as "Made in Italy" into MADE IN FLORIM.

Garbelotto - www.garbelotto.it/en/

Since 1950, in the Garbelotto R&D offices – a leader in the production of wooden floors – passion and style seal a creative union between art, innovation and design. The result is an infinite range of parquet floors that honor Made in Italy excellence, with remarkable attention to Nature and green building, as well as to the controlled and certified quality of raw materials and processes.

The research and development department is very active and constantly is looking for new technologies that can improve the performance and aesthetics of wooden floors. Garbelotto has developed Clip Up System®, the patented laying system that has revolutionized the world of wooden floors. This ingenious and unique patent allows you to replace one plank at a time in less than 1 minute without dust and noise, ready to be walked on, thanks to a one-meter long polymer clip system that fits into lengthwise milling in the underlying multi-layer.

Every single square meter of wooden floor is designed and produced in the factories in the province of Treviso, CI certified, 100% Made in Italy.

K-array - www.k-array.com

K-array is a renowned manufacturer of unique audio solutions with our global headquarters in Florence, Italy. Since 1990, we have concentrated our efforts and resources in the revolutionary design and manufacture of highly efficient audio systems with impressive performance. To be an inventor, you have to be a bit rebellious to go against the grain and that is what we set out to do year after year with our innovative technologies and unparalleled solutions. We pride ourselves on being unique to the market, inventing solutions never dreamed of before.

With an extensive portfolio of product lines providing ultra-compact and discreet speaker solutions for sophisticated setup in various market segments such as retail, hotels and resorts, restaurants, nightclubs and lounges and yachts, our pursuit is to pioneer the design of audio elements crafted with Italian artistry in Tuscany using premium materials, without ever compromising the sound quality and championing the importance of audio.

KE - www.keoutdoordesign.com/en/

KE is synonymous of Italian excellence since 1987: the company manufactures high-end outdoor solutions such as awnings, pergolas, rollers, custom made systems and sails. This wide range of shading systems satisfies the most demanding requirements of designers, architects, upholsterers and outdoor professionals. KE Outdoor Design forms part of BAT group, a company

PIANCA & PARTNERS

with more than 30 years of experience in shading systems. The company plays a major role in the awnings and pergolas global market, with several branches, along with the headquarters located in Noventa di Piave (Venice), Italy.

Londonart - www.londonart.it/en/

Londonart is an Italian company producing exclusive wallpapers, based in Noventa Vicentina in the province of Vicenza, with showrooms in Milan and Miami. It is specialized in the production of exclusive wallpapers which are divided into multi-functional collections of indisputed aesthetic appeal, and also boasts numerous international projects in the contract and retail sectors. The flexible, agile brand has managed to establish itself in the landscape of Made-in-Italy design, becoming a symbol of true excellence in the sector.

Mareno - www.mareno.it/en/

Mareno kitchens are manufactured basing on experience in the field, thanks to listening to customer needs and collaboration with chefs. Believing in the value of company history, Mareno treasures the project carried out and the opinions of customers. From 1962 to today it has accompanied the work of three generations of chefs and since 1996 the company has been part of Ali Group, the main global leader in the foodservice equipment industry.

Listening to and understanding customer needs is very important to Mareno, because it allows to offer a highly personalized service. The company provides solutions to best meet everyone's wishes, aiming to always give the highest quality in terms of design, ergonomics and productivity, following the customer at every stage, from consultancy to the design of kitchen environments equipped with all the necessary equipment, and technical assistance, giving the security of a complete answer to his needs.

Margraf - www.margraf.it

Margraf's story (former Industria Marmi Vicentini) started in Chiampo (province of Vicenza) in 1906. Since its early start, the company devoted to accurate research work and development of new technologies, working in tight collaboration with famous international architects. Today, after more than a century, Margraf is a leading, world stakeholder in this field. Among many other pluses, Margraf owes its worldwide established reputation to its skilful extraction of marble and the ability to transform it into finished, polished slabs or tiny tiles and to provide a huge array of precious materials and excellent products for building construction and architecture (from the cladding of inner and external walls, to interior design items, to bathroom and kitchen decoration). On top of all this, Margraf ensures extensive environmental compliance investing any efforts to minimize any possible kind of environmental impact. This includes the use of cutting-edge technologies, the implementation of landscape recovery and energy saving practices, as well as the exploitation of renewable resources. Margraf is a perfect merging of past and present forming a first-class enterprise eagerly turned to the future.

PIANCA & PARTNERS

Milani – www.sm-milani.com/en/

Milani has always focused on tailor-made, distinctive products, which give quality Italian manufacturing a competitive edge. This aspect has always been a guide and an inspiration for the company, a combination of creativity and technical skill. It's all about design, harmony, strength and ergonomic shape. It's the ability that allow us to launch new collaborations with design studios and to work in a less standardized way. Milani S.r.l. was created in 1975, inspired by the vision of Rino Milani and the creativity and sewing skills of his wife Luigina. A series of milestones have marked the company's journey: from its first production centre, where the prototypes of the seats and sofas for home and office were developed, to the creation of Milano S.r.l. in 1997 in Meolo. From strengthening its presence in foreign markets, to redefining its corporate structure as the new generation takes over in management roles, continuing the family business with the same passion and dedication.

Nahoor - www.nahoor.com

Nahoor Lamps are the result of creative work of William Pianta who, by treasuring the past of Italian design, reinterprets it through motivations taken from day by day living experience that evolves and from the technology that updates. The finishing process of each product structure is made from the best and most experienced Italian artisans. A production process that requires flexibility and patience by considering the individual special needs of each customer, ensuring a "tailor-made" service, bespoke.

Nord Resine - www.nordresine.com

Our company sinks its roots in Italy and, for several years, our philosophy has been charting new territories. We envision, design, study and manufacture resin systems for any type of need or market, from the building industry to the interior design sector. Our passion and quest for excellence in our daily activities have been steering us towards important specialisations, in an ongoing search for new values for our customers. Innovation and sustainability, aesthetic research and functionality converge in a single point: Nord Resine.

Oikos - www.oikos.it/en/

Oikos has been manufacturing security doors in Gruaro, near Venice. The company is well-known in the national and international market as a leader in the high-end doors production.

Oikos is characterized for the ability of mixing hand-made skills with an industrial organization, this peculiarity makes it able to create unique and advanced products, born from a continuous and fruitful research of innovation both in tradition and in artistic expressions.

"Explore, believe, create" is the mood that moves every action, leading the company to attract the preference of international designers and planners who look for integrated solutions with a high aesthetic impact.

PIANCA & PARTNERS

Oikos, for the first time in the world, has been able to give the entrance a well-deserved architectural value, finally considered an integral part of the living context even due to the its solutions of continuity with the wall, valorized by state-of-the-art materials, colors and finishes.

Palazzani - www.palazzani.eu/en/

Palazzani, thanks to its values of brand, quality, technology, design, and sustainability, is a world leader provider in sanitary tapware's sector, in full respect of the environment. The production cycle is entirely made into the factory in Casalmorano (Cr). All our products are designed and realized to grant the maximum saving of water and energy, do not affecting user's comfort. A conscious approach of resources does not represent a challenge but a real mission for development of sustainable technologies. In our 1000m² showroom in our factory, you can see our whole production of taps, showers, ceramics, and accessories, exclusively Made in Italy! Thoughts, energy, innovation, invention, technic, passion, modernity, excellence, quality, research, care, efficiency, company ethic, know-how: these are since ever our guidelines to give water the best form.

Pianca - www.pianca.com/en/

Pianca was founded on one Italian family's passion for the art of woodworking. Over time it has become a well-established brand that designs and manufactures furniture systems and accessories for the whole home, all strictly made in Italy. Pianca adopted an ambitious growth and internationalisation strategy for the retail and contract sectors years ago. Now the company is pushing towards the future, focussing on expertise, innovation and sustainability.

Santo Passaia - www.passaia.it

A long story dated back to 1953, when tradition and innovation met. The decades-long experience of Passaia meets the continue research for new styles and emotions. New projects are brought to life and take shape: vision, intuition and creativity converge, opportunities are infinite and possibilities unlimited. Ideas grow and transform and thoughts become reality; aesthetic and functionality merge and give life to an exclusive and refined work of art!

Talenti - www.talentiurl.com

Talenti is an Umbrian company specialized in the design and realization of outdoor furniture that combines elegance, functionality and quality. The Talenti collections, signed by international designers, such as Karim Rashid, Marco Acerbis, Ramón Esteve, Ludovica + Roberto Palomba, offer products for dining and living characterized by a strong reference to the indoor world, suitable both for contract projects and for residential ones. Over the years the company has shown increasing attention to the world of design and today offers with its collections products that can satisfy not only the most classic tastes, but also the most contemporary ones. In consolidating its identity Talenti has proven over time to be very attentive to the global market and currently is present in more than countries with a qualified and articulated sales network. Every year the

PIANCA & PARTNERS

company also participates in the main trade fairs in the sector and its products are chosen for international fit out.

Vitrik - www.vitrik.it

In the Italian panorama of PDLC glass, Vitrik stands out for being a structured, specialized and technically prepared company that offers all the necessary guarantees. VK Design is a technological product treated with all the necessary guarantees, handmade but with an industrial production system that maximizes its functionality and aesthetic care. High degree of customization, development of each individual project together with the customer and after-sales service are further distinctive elements of professionalism on the market. Vitrik is a reliable and flexible partner, capable of offering a complex product for complex projects with all the necessary guarantees, both in Italy and on the most important international markets.

Pianca & Partners www.piancaandpartners.it/en/

Pianca & Partners is a new hub for contract customers, consisting of SMEs, all masters in their respective sectors. The project arose from the desire to cultivate synergies between various companies in the furniture and construction supply chain, promoting a project development model founded on principles of flexibility, collaboration and economies of scale.

Pianca & Partners will be based in the 900 sq.m showroom designed by Calvi Brambilla in the heart of Milan's Brera design district, in Via Porta Tenaglia 7N3. A space where you can discover our partner companies' products and services, consult with qualified professionals who will assist customers in choosing the best solutions, but also a vibrant space hosting talks, round tables, installations and exhibitions.
