Everel is a leader in the production and supply of electronic and electromechanical parts for the most celebrated household electrical appliance manufacturers and for the principal automobile producers.

The company can provide, through its brands Molveno, Dreefs, Signal Lux, Giem, Mec-Tronic and Everel, a vast range of electrical parts for the household appliances sector, including switches, selectors, signal lights, motors, heating elements and customized solutions for oven ventilation. While maintaining its focus on electromechanical items, the group also invests in products with electronic content, such as encoders and PCBs.
