

ATELIER | belge

MY HOME,
MY PERSONALITY

Atelier Belge is Belgian based design Studio/Brand founded in 2014 that puts its main focus on storage design. Functionality, timelessness, and customisation are the values that propelled Atelier Belge into the creative branch. Our quirky ideas roam from our drawing table to our in-house workshop and back, until we believe they are ready for market. All our work is the result of a close collaboration between designer and our dedicated craftsmen.

We attach great importance to clean and minimal aesthetics. But our articles only find their true and specific character when shaped by YOU as its user, expressing your identity. The endless versatility in function, material and colour offer you a unique way to personalize a room or a home. Piece by piece they provide alluring possibilities to construct an interior the way you like. It is what we call 'Playful Functionality'.

Atelier Belge's ethos epitomizes a sustainable style: our products are produced in Belgium within a 50 mile radius of our studio/workshop. Moreover, they respond to meticulous quality standards. Only when necessary, we source materials abroad. In that case we look for long term co-operations with suppliers that ensure their employees well-being, that respect labour-regulations, health and safety and make serious environmental efforts.

LOOPHOLES ORGANISING SYSTEM

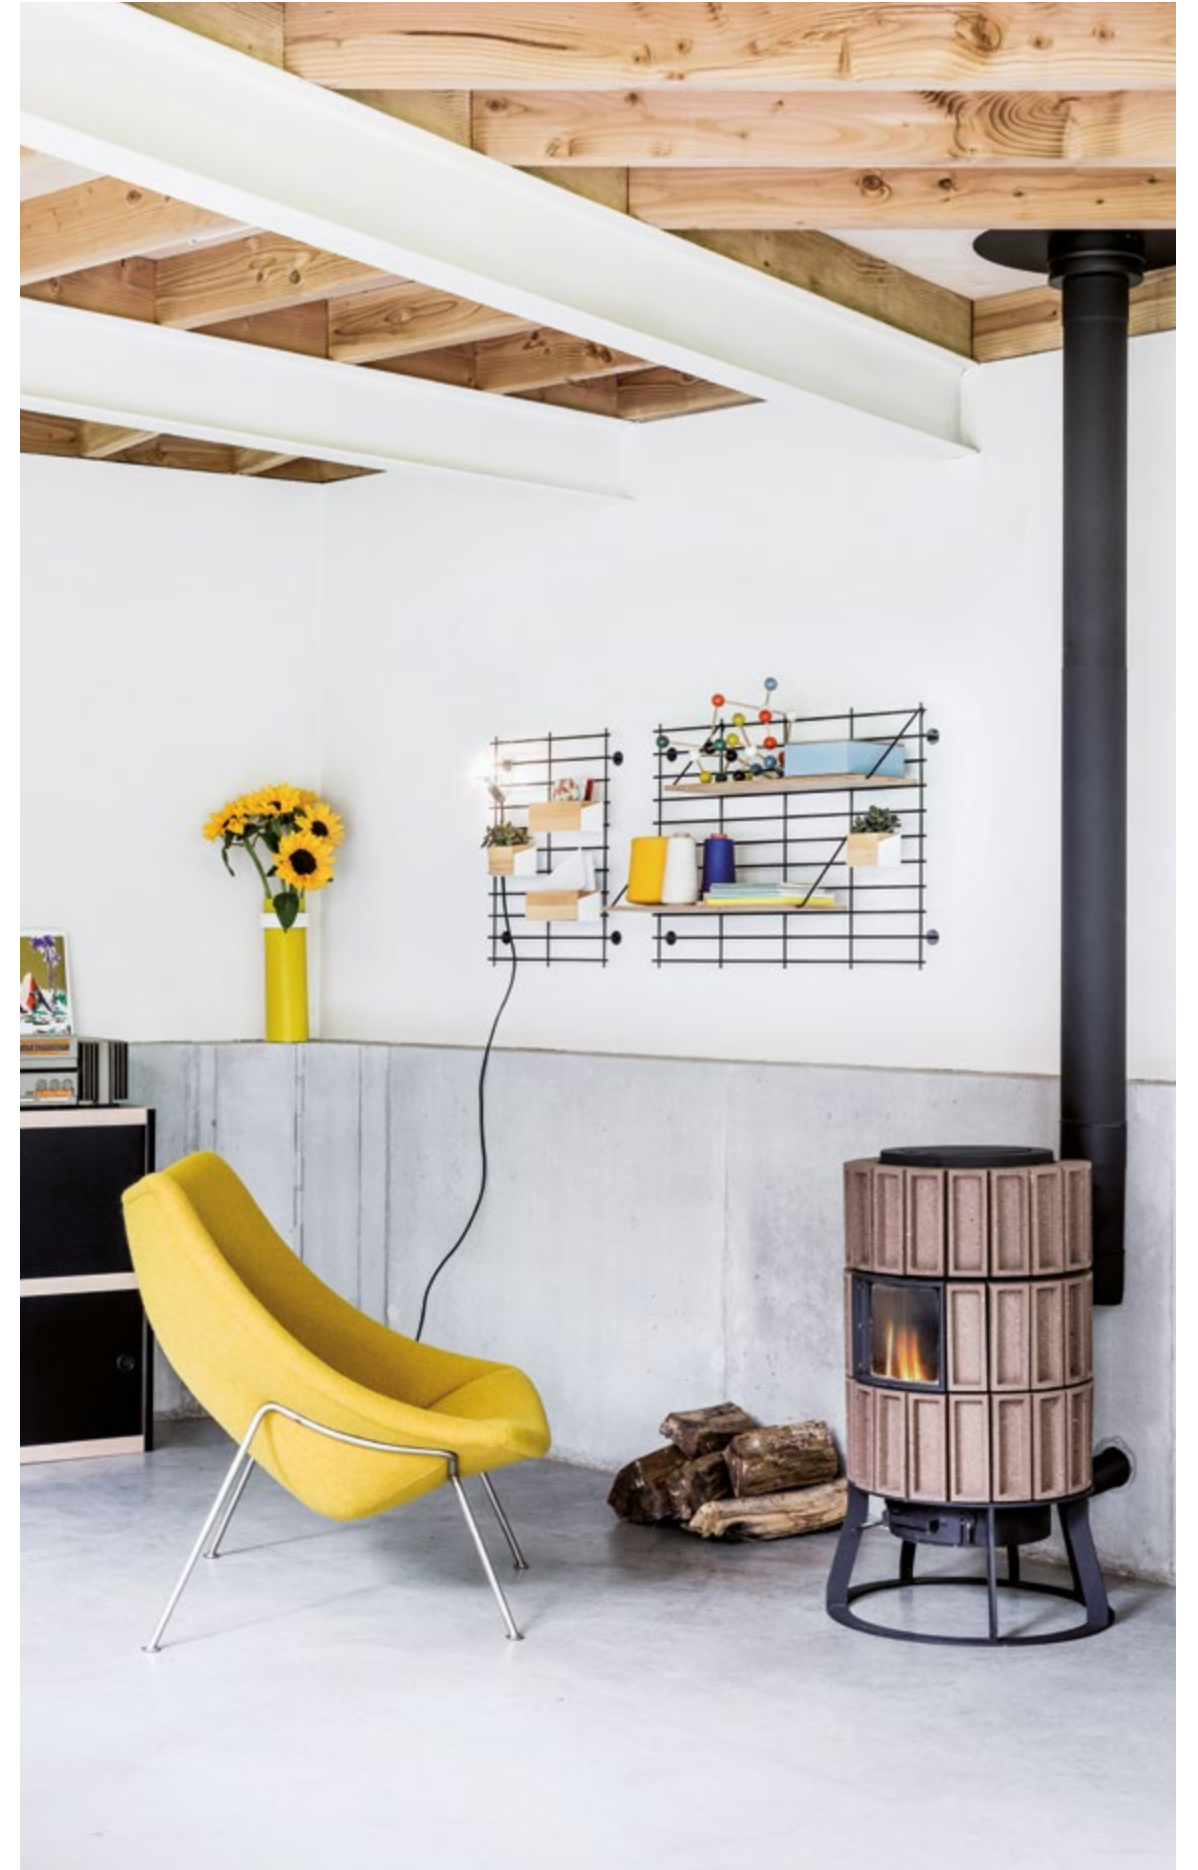

This modular unit is the quintessence of Atelier Belge's three beliefs: timeless design, functionality and personalization.

Its minimal design excels in simplicity; the different setups are unlimited and the wide range of applications allow you to customize the grid however you like! 'Loopholes' isn't bound by trends, styles or functions, which makes it easy to integrate it into every corner of your home.

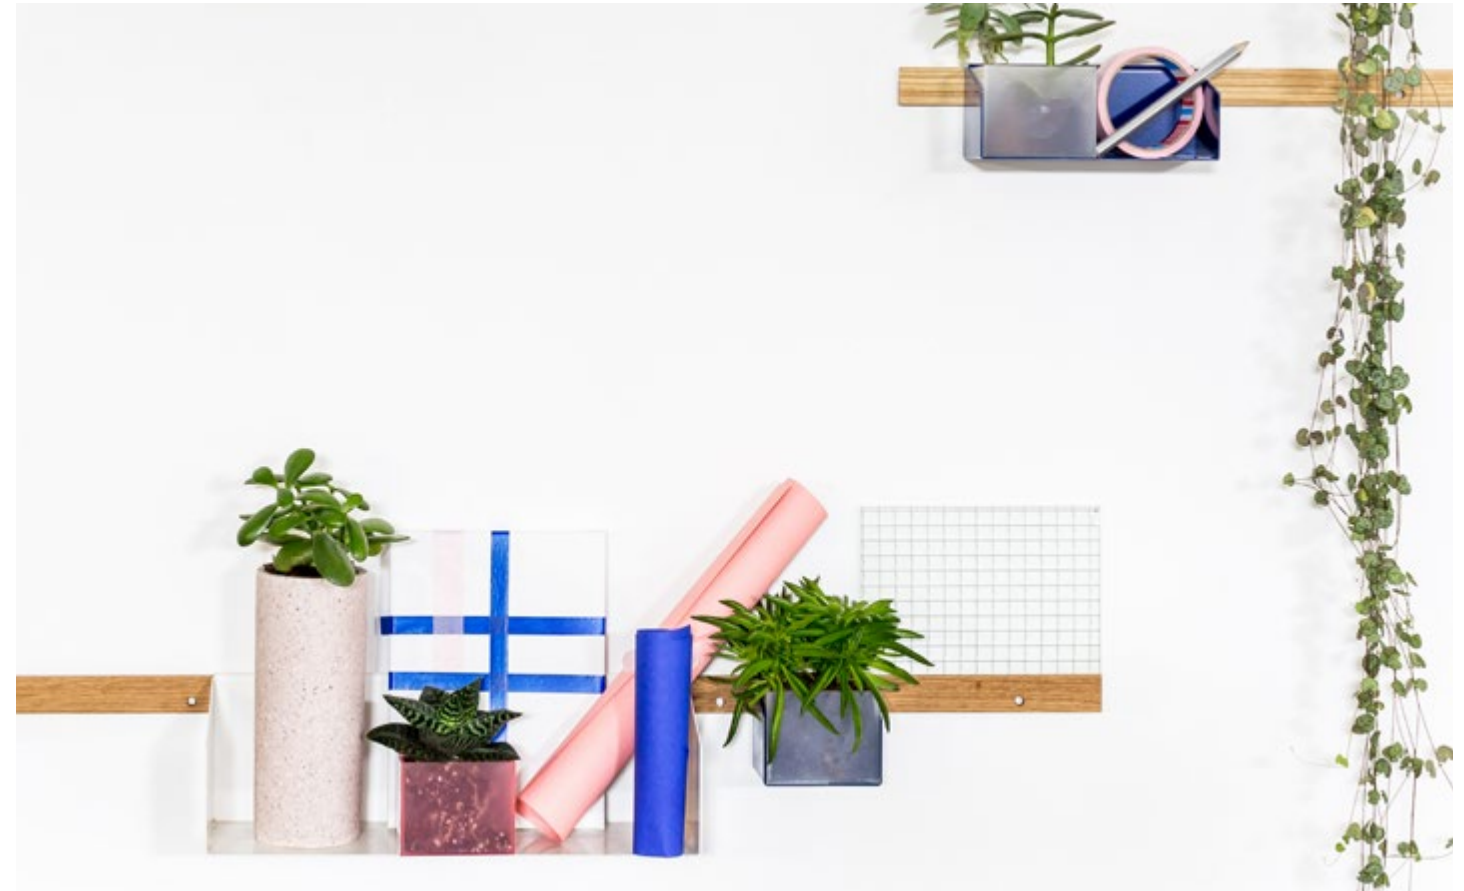

FLAT. ORGANIZER

As versatile and functional as the loopholes, but with a more subtle appearance, FLAT. sets the bar high for practical use.

A fine wooden edge, available in three sizes and four types of wood plus a range of accessories give your wall the purpose and style you prefer. How and where you use FLAT. is completely up to you. Anyway, it brings structure and style into your daily life. In your kitchen, hallway, bathroom or garden.

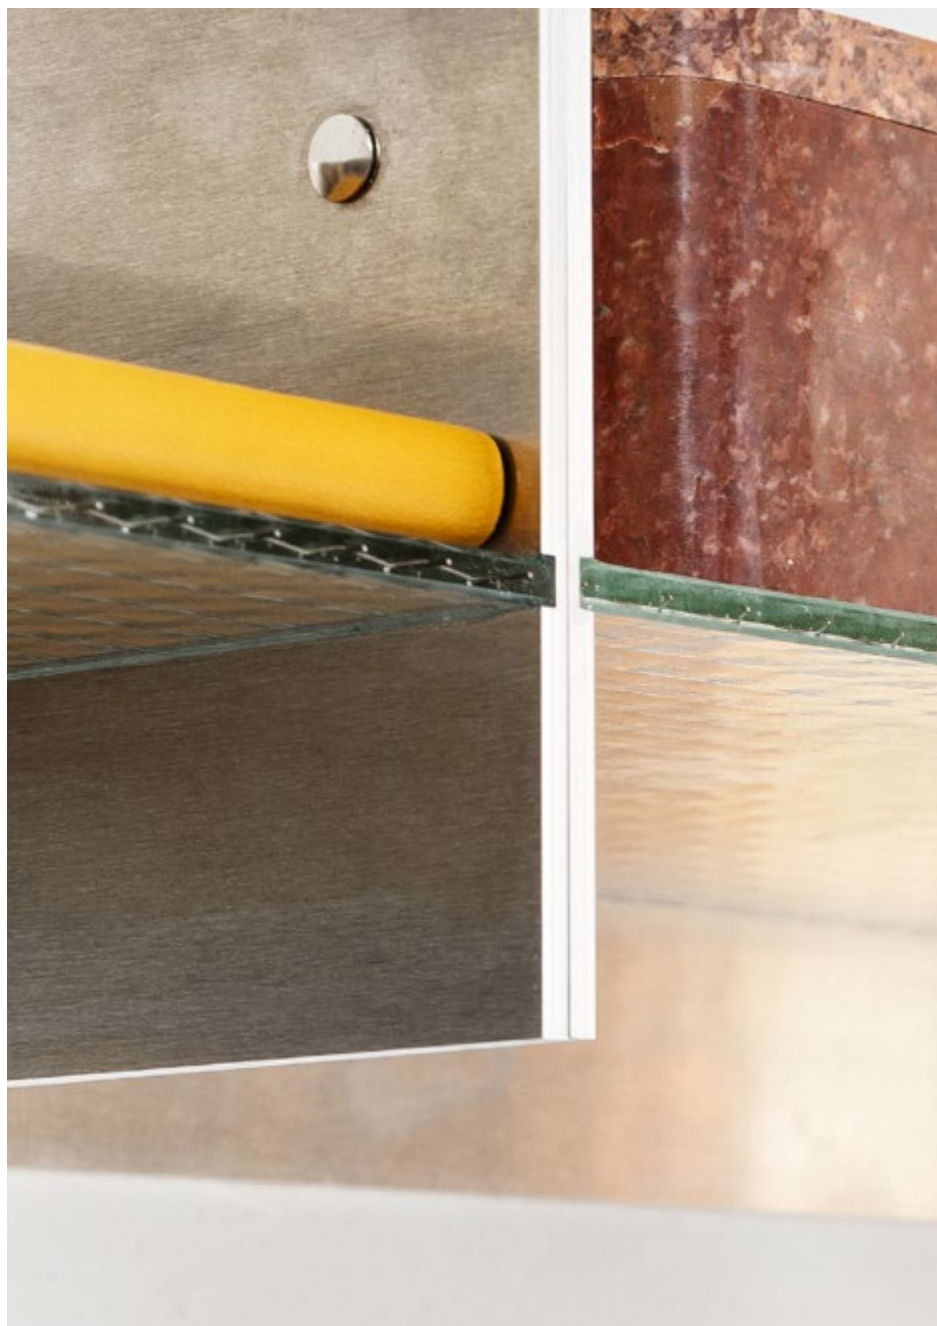

TOTEM CABINETS & SHELVES

A minimalistic and customizabale series of cabinet and shelving units in aluminum.

3 modules, perfectly shaped according to the golden ratio, set up the base for an endless range of possibilities. You can use one of them as an independent piece (on its own) or you can combine them in a big set-up: wall mounted, free standing or on wheels. Horizontal or vertical. With doors, shelves and backs in Woolfelt, wood or wired glass. The outcome of the totem system is completely hand-made by you and only you.

MODUL SHELVING SYSTEM

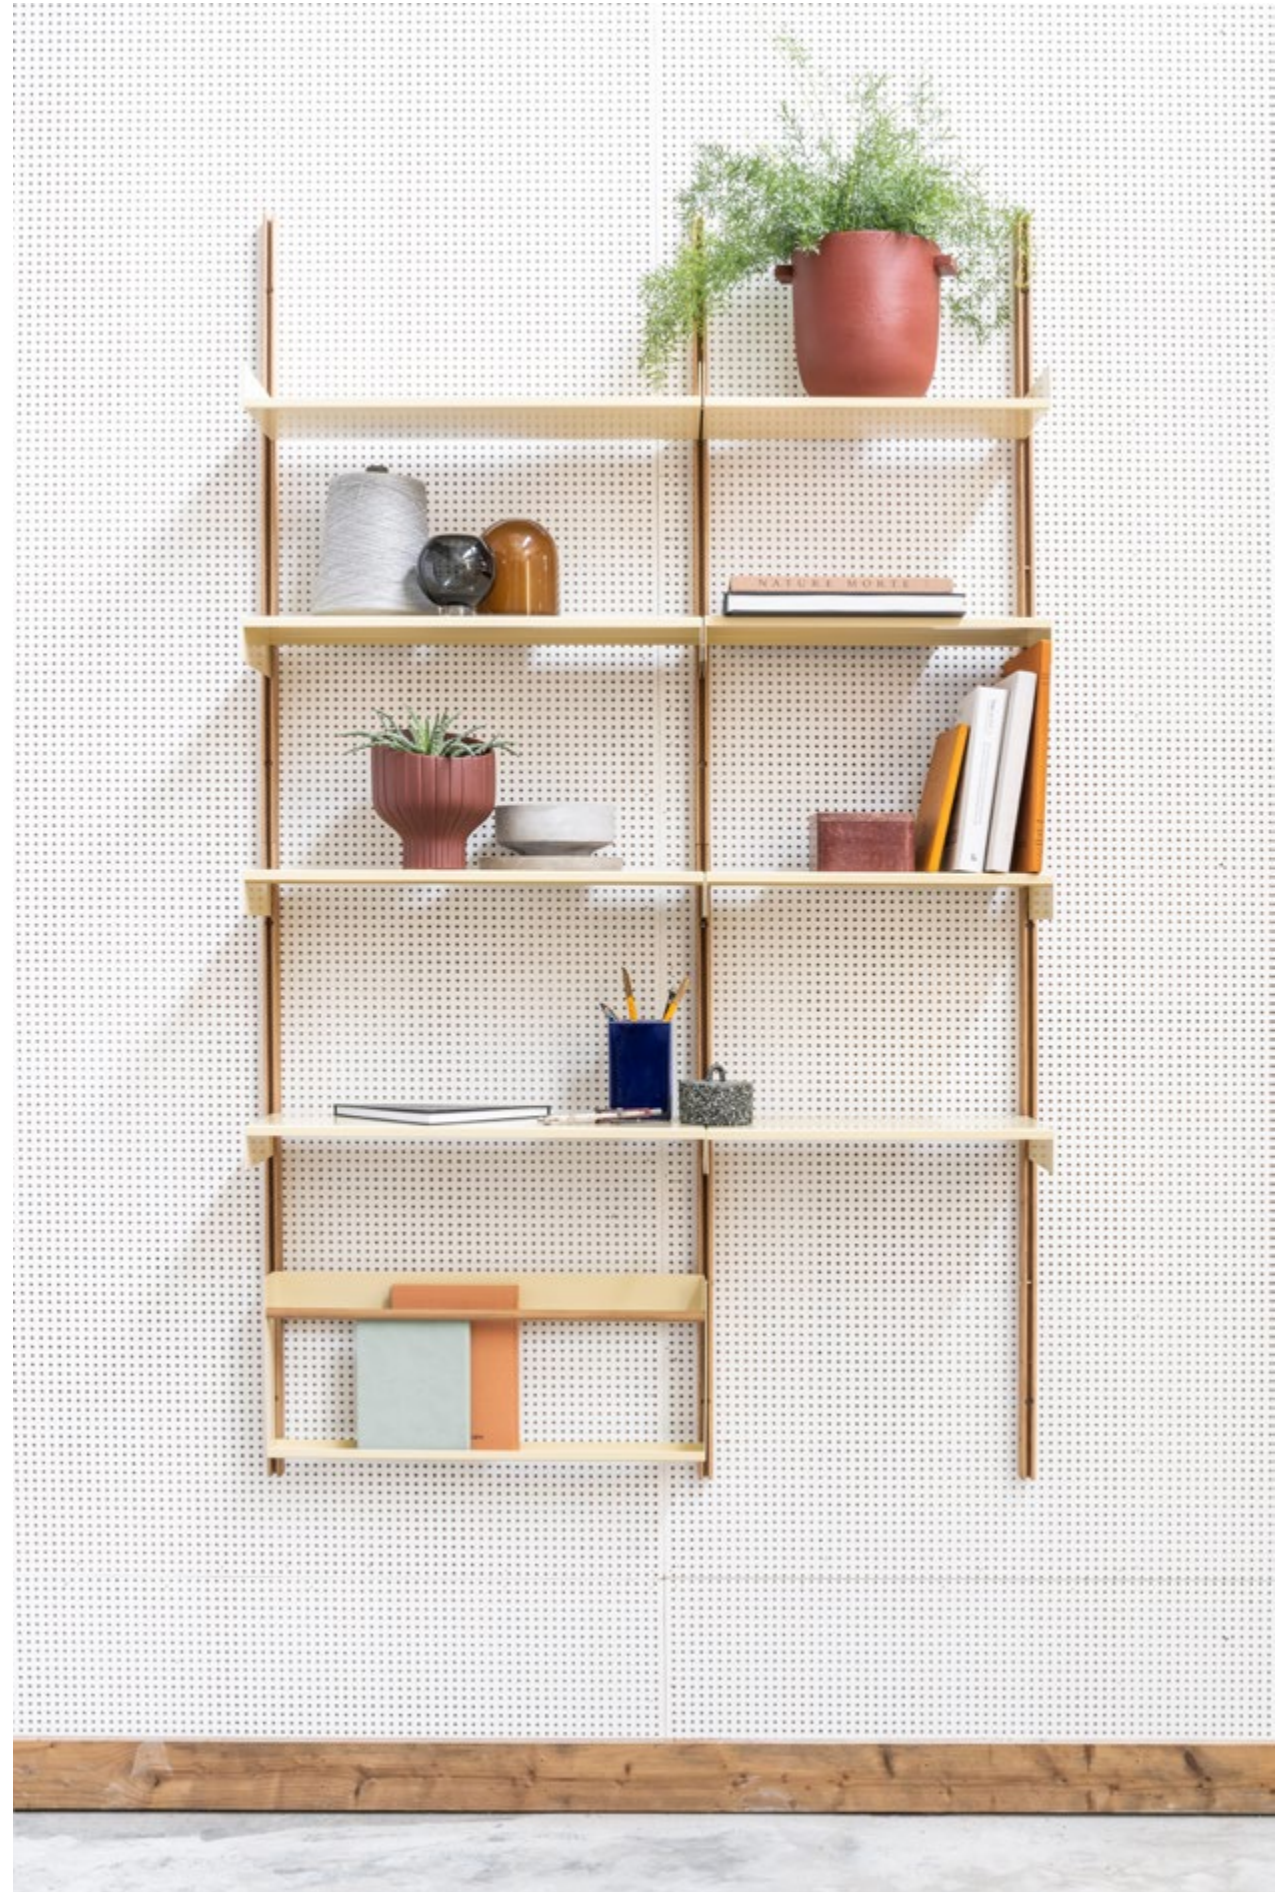

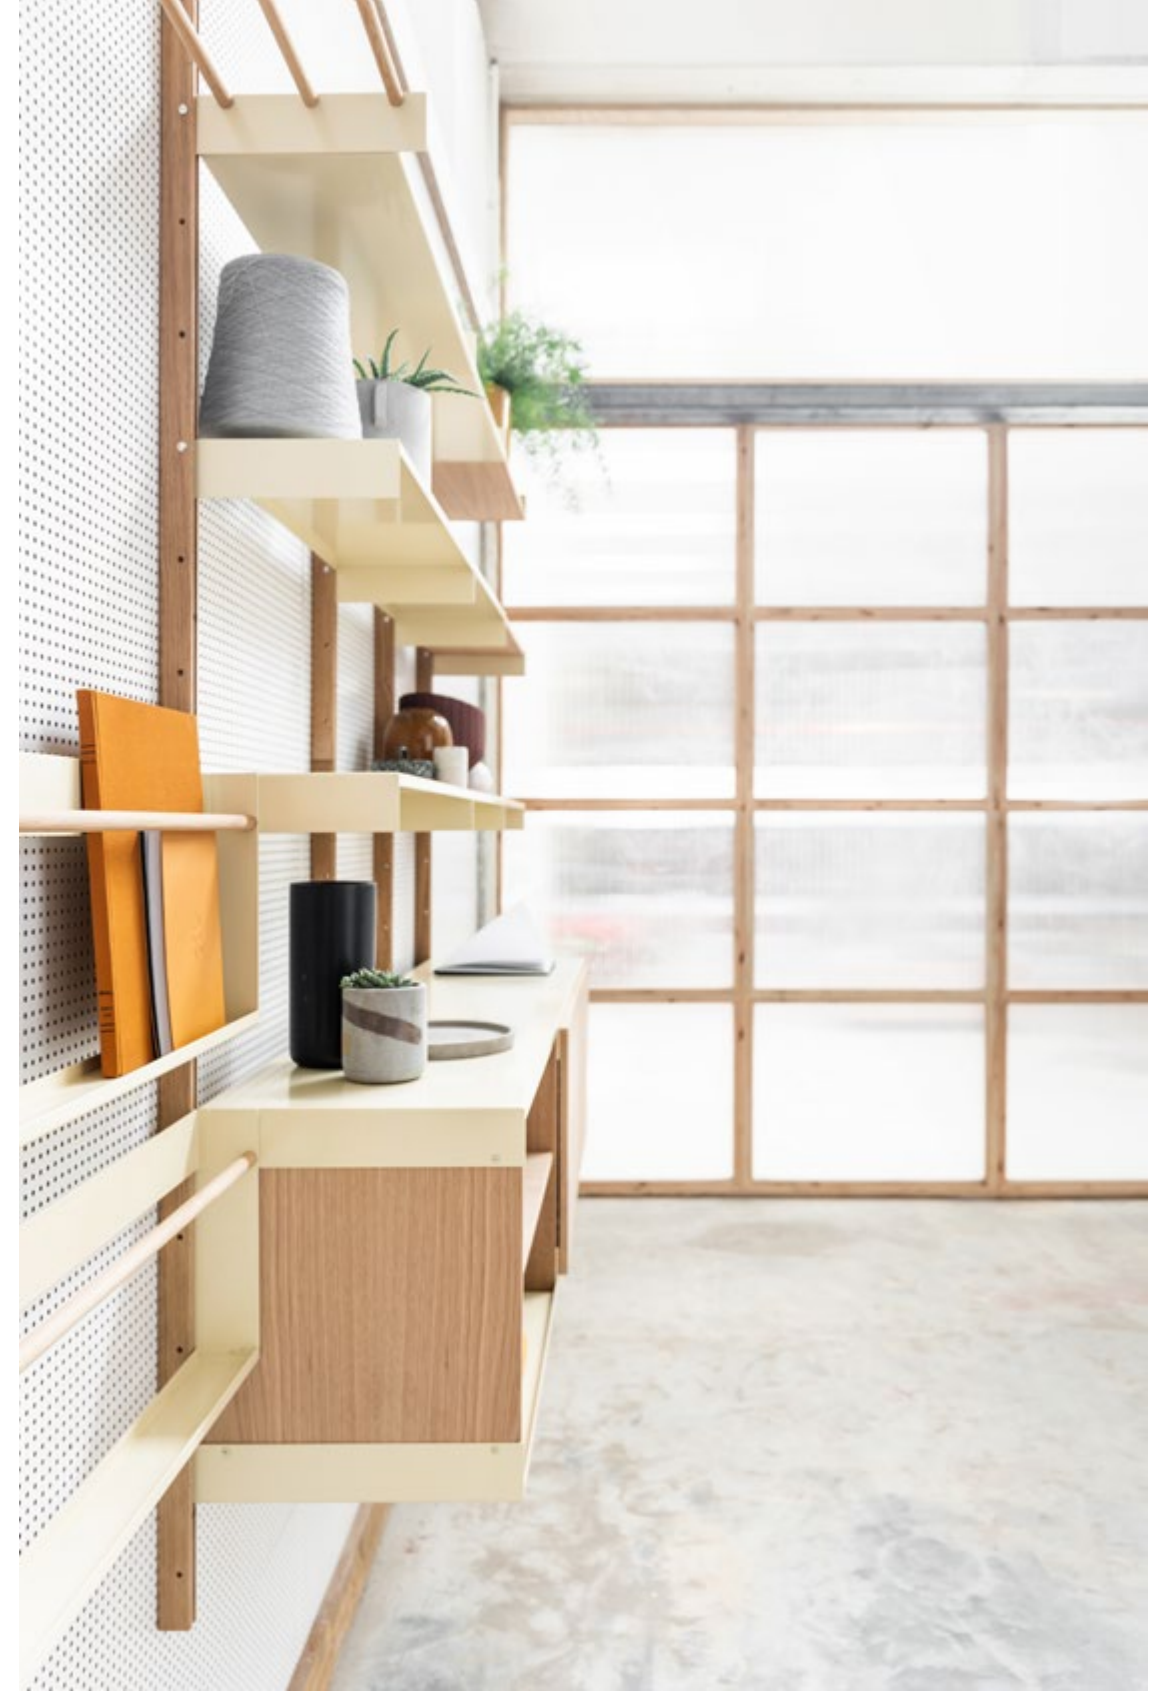

A universal, wall mounted shelving system with a wooden base and a wide range of different functions developed to cater your specific needs.

Available in standard configurations or completely customizable as a library, a cloakroom, as kitchen shelves or even as an entire living room-system. All functions and shelves are available in two widths: 450 and 600 mm

The wall mounted wooden base is available in oiled oak and walnut. Shelves, cabinets and other functions are available in powdercoated steel, oiled oak and walnut.

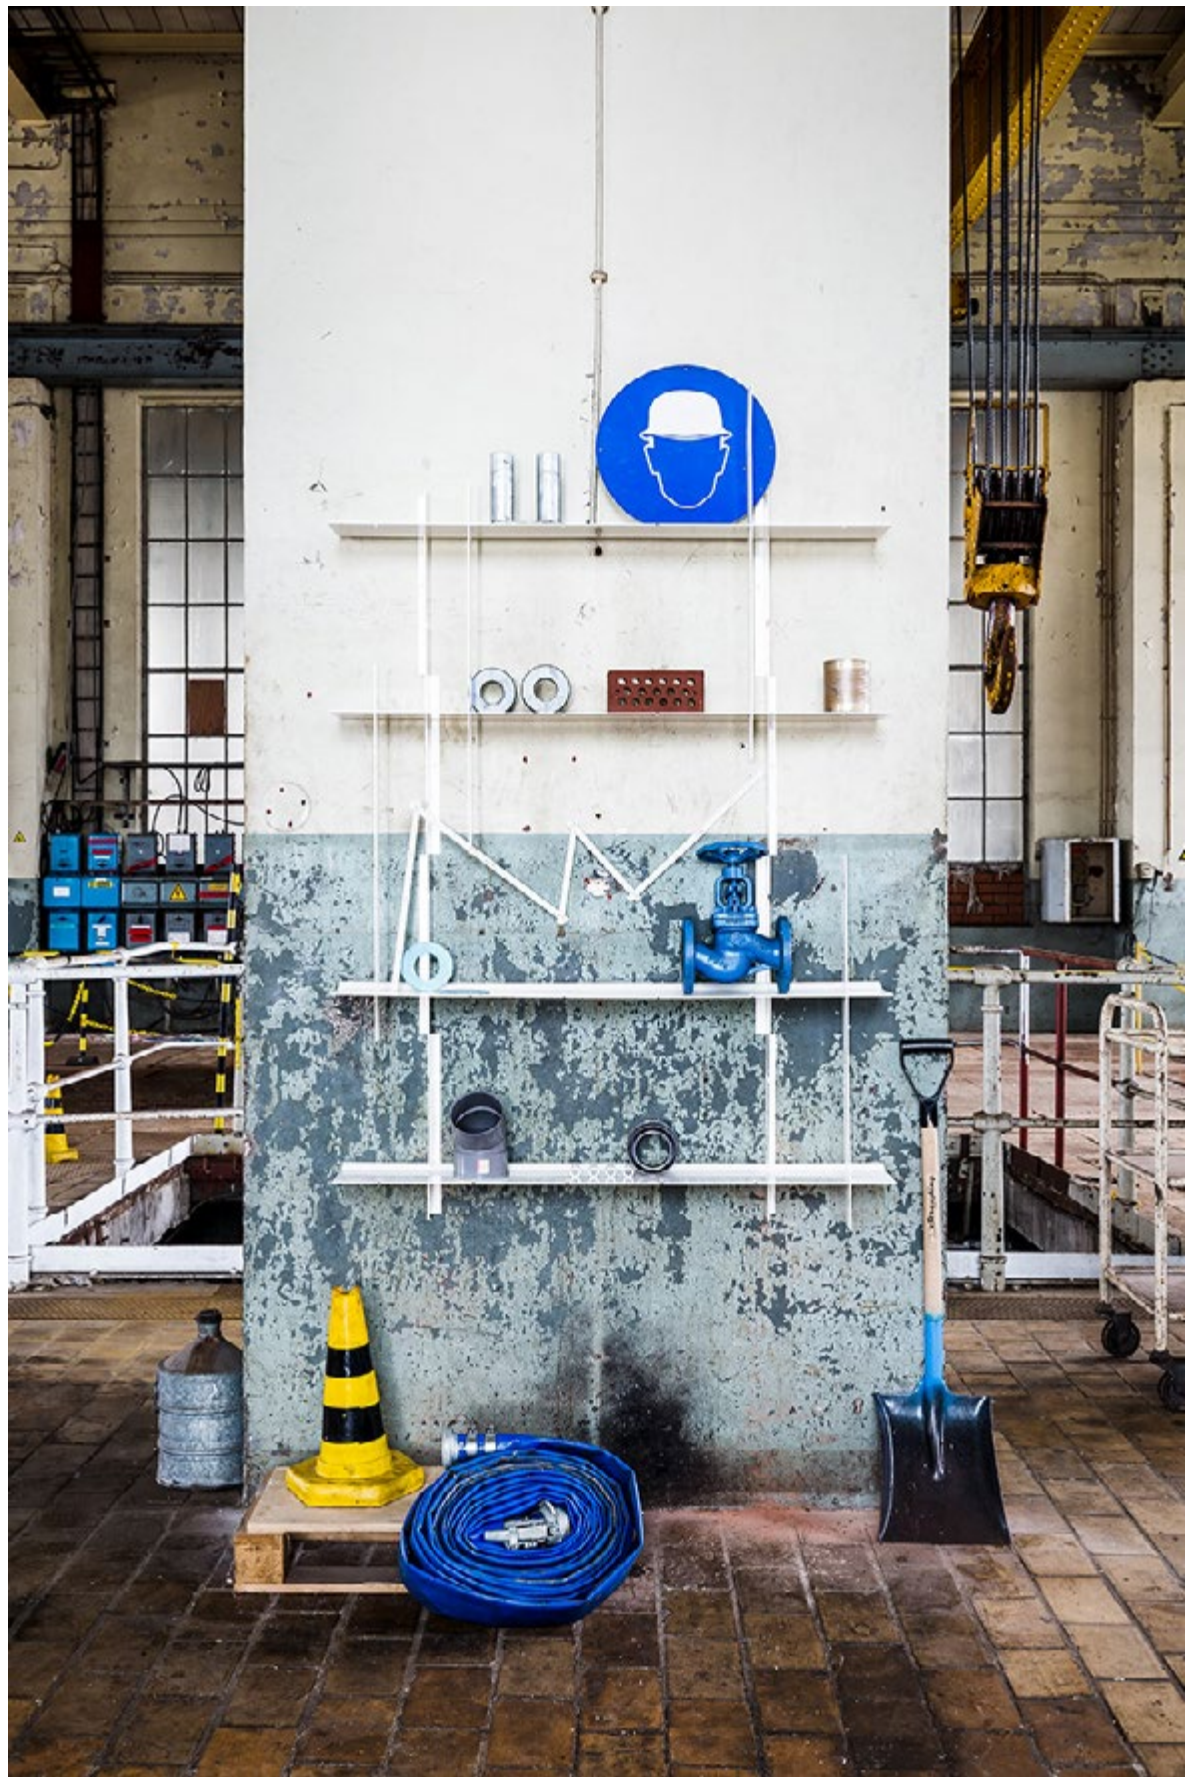

UNLIMITED SHELVING SYSTEM

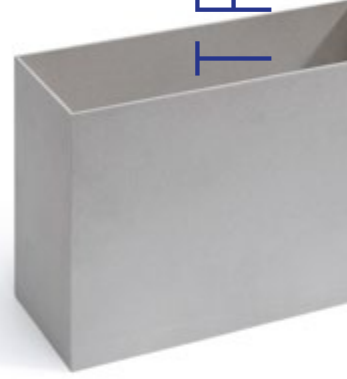

Constructed out of 3 different coated aluminum components, the Unlimited brings you a minimalistic shelving system that is endlessly expandable.

Simple cut-outs in each shelf offer you a vast choice of compositions with a minimum of waste.

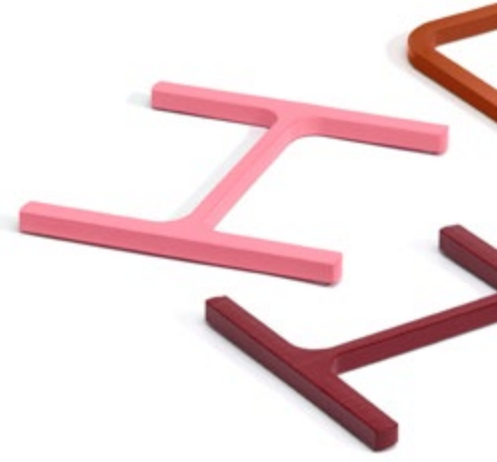

CONSOLE
TRAYS AND PLANTERS

A set of multi-functional trays, vases and planters, based on the golden ratio.
 Available in sandblasted aluminum or in colourful sets of 3.
 - Violet red, old pink and warm orange
 - Steel blue, patina green and signal yellow.

HALF A POUND
SLICED STEEL

Our in house black-smith slices heavy steel construction beams into delicious (pot)coasters.

Available in sets:

- Violet red, old pink and warm orange
- Steel blue, patina green and signal yellow.

LORYY TRAYS

These (vintage looking) headlight covers in glass are still made by hand for one of Ukraine's best known lorry manufacturers....

But they also function very well as a coffee tray, a coaster or soap dispenser. A beautiful gimmick, isn't it?
