

# RE•SET

On occasion of the Milano Design Week 2022, Spinzi unveils RE•SET, a space representing the evolution of the studio's creative path. Conceived as a fracture with the past and a point of restart, RE•SET is a break from the buzz of the Design Week, a place to stop, share ideas and visions and pave the way to future collaborations with brands.

The stylistic research driven by Spinzi over the years, cross-contaminating interiors, furniture and art, finds its concretization in RE•SET, luminous and monochromatic space where Silös and Circus, Spinzi's latest sculptural design series, dialogue with contemporary finishes and space age inspirations.

"Let's reset and RE•SET".

RE•SET is open by RSVP at [info@spinzi.com](mailto:info@spinzi.com); it will launch on occasion of the design week, but will remain accessible to professionals also afterwards.
