About Maqam

Who are we?

Maqam is a furniture and lighting store, and an interior design studio. Our products merge between Middle Eastern heritage and contemporary lines, producing genuine -locally produced- designs with the essence of identity. We have been proudly providing customers with unique, handmade products since 2015. All of our products are designed and manufactured in Egypt.

Our mission

At Maqam, we believe that everything that is natural, is a rich material to be used in our designs. Maqam uses the finest types of wood, copper and brass, along with copper and Nacre, added by the hands of the most skilled craftsmen in Egypt. Through our products, we aim to highlight the Egyptian identity and revive traditional craftsmanship, adding value and meaning to the pieces.

About the Founder

Drawing inspiration from heritage and presenting it in modern lines turns furniture into distinctive, artistic pieces that integrate ancient civilizations with our modern times. Consequently, furniture owners do not feel separated from their reality, but rather connected to their roots, further widening their horizons.

This is what Nouran Khedr aims to achieve through Maqam. Nouran studied Architecture and Environmental Design at the Arab Academy for Science, Technology and Maritime Transport. As a student, she always dreamed of designing furniture, and her passion for the Arab heritage continued to increase following her graduation. Her products combine the spirit of the Middle East and modern contemporary lines. She creates designs that are enriched with natural materials made by Egyptian craftsmen from the finest types of natural wood.

Nouran believes that every architect has a passion that shows their mark in any of their work. Her mark is exemplified in her modern way of reviving the Arab heritage and presenting it in a manner that highlights originality, quality of details and simplification, as her designs reach loving homes in the best image.
