

2019.05.01 - Ponte San Pietro (Bg) - Italy

Hello! We're studioPANG
and we deal with design, communication and architecture

Bio Fabio Damiani and Marco Quistini set up studioPANG in October 2012, based on the shared idea that by combining diverse passions and skill sets, the approach to the project is enriched with new ideas and perspectives. Design, architecture and communication are, first and foremost, opportunities for comparing and contrasting, before being channelled into the project. StudioPANG is a workshop - one that is constantly engaged on researching and developing ideas and projects; an open, dynamic environment that leverages a wealth of different experiences to give rise to a versatile and multi-faceted business.

Info We introduce ourselves with a project.

A wide and diversified project, which effectively describes the professional transversality offered by our studio. We have been supporting Déco at 360 degrees for several years, supporting it in a constant dynamism that places it among the “top 300 Italian companies for growth” (source: *Il Sole 24 Ore*).

Our versatility has led us to develop an artistic direction on several fronts. We take care of all corporate communication (paper and digital); we have designed and built the new offices, showrooms / warehouses as well as various trade fair stands; we have also recently designed and built an entire line of outdoor furniture (*Rise*) with which the company makes its debut with ambition in the furniture sector.
