## YUSUKE TAGUCHI DESIGN

### Yusuke TAGUCHI

**Context Craft Designer,  
Product Designer,  
Creative Director**

ITA\_Yusuke Taguchi è un designer di sviluppo del prodotto che si dedica alla valorizzazione della bellezza intrinseca dei materiali e delle persone attraverso la collaborazione con artigiani, maestri d' arte e autori in Giappone e all' estero. Grazie al suo stretto rapporto con gli artigiani, le sue creazioni nascono con una perfetta armonia tra "fare", "comunicare" e "vendere", dando vita a pezzi evocativi e autentici.

Le sue opere sono state esposte in numerosi eventi di design internazionali come la Milano Design Week e Maison & Objet, con un recente focus sull' applicazione pratica del design nella vita quotidiana. I suoi progetti offrono non solo la possibilità di acquistare prodotti esclusivi, ma anche di interagire direttamente con gli artigiani, creando un ponte tra tradizione e innovazione.

ENG\_Yusuke Taguchi is a product development designer whose work aims to capture and incorporate the intrinsic beauty of mediums and people via Japanese traditional artistry and collaboration with artisans, craftsmen, and authors both domestically and abroad. His close interaction with artisans allows for freedom of expression within the framework of "making" "conveying" and "selling," leading to truly evocative pieces.

Taguchi has exhibited his work at a variety of international design events like Milan Design Week and Masion&Objet where in recent years he has focused his energy on showcasing the practical potential of products in daily life, providing opportunities for consumers to both try out and purchase products, and also interact directly with the artisans that made them.

手仕事と素材の文脈に寄り添い、暮らしに詩的な機能を編み込む

"Radicato nella lavorazione artigianale e nei materiali, intrecciando poesia nella vita quotidiana."
