

## SINAFU deco bowl

SINAFU deco bowl are a new products in the SINAFU series. These are nested bowls that reinterpret the lines used in the national treasure Nishi Honganji and the world heritage Nijo Castle as the beauty of decorative lines unique to Japan.

“Shinafu” is an archaic word, meaning “elegantly hanging.” The shapes of SINAFU’ s bowls and dishes were designed to reflect the traditional shapes and spirit of hospitality of Yamanaka Hot Spring, which has been welcoming visitors and passing on the techniques of Japan in the 700s. SINAFU does not only express warm hospitality with beautiful arrangements on bowls and dishes, but also literally makes your hands’ movements look more graceful.
