

## PRESS RELEASE

DGA opens the first Milanese Showroom in Corso Monforte 23  
Corso Monforte in Milan, the district of designer light, hosts the new DGA Showroom, inside the building that housed in the past the Studio of Lucio Fontana.

Located in the heart of the Milanese lighting design district, surrounded by some of the most prestigious brands in the lighting sector, the new Showroom is spread over a 100mq space, arranged in two levels.

A meeting place where lighting designers and design lovers can experience a wide range of Made in Italy lighting fixtures and thus have a complete vision of the DGA universe.

A fluid but also multifunctional environment: many areas will offer visitors the opportunity to dialogue and experience the light in a personal meeting with DGA.

Not just an exhibition but also a workshop: the Showroom will host a rich program of training activities in the coming months.

You can visit the Showroom from Monday, June 6th, from 12pm to 10pm.

We look forward to enjoying a branded cocktail break with you during the Design Week, every evening after 6pm.

DGA Milano Showroom  
Corso Monforte 23, 20122 Milano
