

## **Mohd Sinfonia by Nichetto Studio with Steinway & Sons**

During Milano Design Week, Mohd presents “Mohd Sinfonia”, with a setting encouraging the exploration of the pluralistic vision of the Mohd home project, at Officina Milano in via Macchi 82.

Once again, the aim is to create an enveloping experience in the world of research design. By orchestrating a symphony of elements, Nichetto Studio has created a space that elevates aesthetics and acoustics by using the vaulted ceiling – signature Mohd Officina – to enhance the theatrical nature of the installation. Around the theatre, thirteen purpose-built sets sit among draping that recalls the typical stage curtains. They showcase never-seen-before objects, furnishings, and brands – including Augustin Rose, at its debut in Italy – that signify the ongoing research effort by Mohd that focuses on the Milano selection – a choice specifically targeted to a contemporary city living experience.

During Milano Design Week, the venue will display the Gran Nichetto limited edition piano by Steinway & Sons (designed by Luca Nichetto and Nichetto Studio in 2022) for the first time in Europe. Enhanced by the Steinway & Sons Spirio technology – the best high-resolution player piano in the world – music will resound, further heightening the theatrical atmosphere.

Between 19 and 21 April, Mohd Sinfonia will host three performances by internationally-renowned pianists – Roberta Di Mario, Monica Zhang, Costanza Principe – who will round off the experience with premieres that will add an extra, rich layer to the Mohd house vision.

### **About Mohd**

Since 1968, Mohd blends the largest selection of high-end furniture, lighting, and accessories together with the newest collections, providing an exclusive interior design service to support architects and clients with passion, expertise, and curiosity. With five showrooms and an online digital platform, Mohd supports authentic design.

That's Mohd. That's More.
