# Portal

PORTAL is the name of the fragrance inspired by the district, its artistic currents and the spirit of freedom that pervades its streets; the name, a tribute to the iconic monuments that once represented access to the city center for those coming from the city of Venice, is meant to evoke a true dimensional portal that, through its olfactory notes, projects the mind into a reality of its own.

## PERFUMER INSPIRATION

“I wanted to capture the dazzling energy of juicy, colorful citrus fruits, contrasted by the creamy, enveloping sensuality of warm woods.”
