

Planika designs premium modern fireplaces for contemporary architecture and refined interiors. Trusted by architects worldwide, the brand combines a strong global presence with European production excellence.

Planika's portfolio includes bioethanol, steam, and automatic outdoor fireplaces, offering real or ultra-realistic flames, advanced safety technologies, and iconic, minimalist design.

Designed with the architectural process in mind, Planika ensures seamless collaboration by providing comprehensive 2D and 3D models, detailed technical documentation, professional training, and dedicated design consultations—making it a reliable partner for ambitious architectural projects.
